APPENDIX V.

Extract from Notes on Economic Enquiry in the Rangpur District by the Settlement Department.

An enquiry was made of the economic condition in 11 villages of 508 families with 3,272 persons giving an average of 6·4 persons per family.

The classification of families according to standard of living is difficult and there was no uniformity. However from the figures as they stand one-ninth of the villagers are living in starvation, *i.e.*, they have just sufficient to keep themselves alive and no more or of whom it can be said that there is definite evidence of under-feeding or real lack of clothing. This probably represents a fairly pessimistic view of the standard of the country. Against this, between one-third and one-quarter of the families representing one-third of the persons can on any view be described as in comfort.

Those who have less than 1 acre of khas land may be styled landless. They can have little land besides their homesteads. They amount to a quarter of families and a little less than one-fifth of the individuals.

The compilation of figures shows that 29 per cent. of the families are free from debt. This is a more serious condition of indebtedness than that found in Faridpur by Mr. Jack. In that district about 1906-10, 55 per cent. of families of cultivators and 59 per cent. of all families were found to be free from debt.

Debt in some measure is determined by credit. The fact that in every village except one the proportion of families free of debt exceeds the proportion of individuals show that the "free of debt" class contains more than a proportionate share of small families while although the landless class form only one-quarter of the total families they form three-eighths of the families free of debt. Only four out of the twenty-six big family groups possessing 10 or more acres of khas land are free of debt.

Any opinions as to why indebtedness is now more widespread in south-east Rangpur than it was in Faridpur 25 years ago, must necessarily be based on mere speculation. One may surmise that the present enquiry took place at a time when debt was very prevalent. A period of high prices has been followed by three or four years of low prices, prices of jute and paddy being only a third of what they were five or six years ago. Before cultivators adapted themselves to the new low level of prices they certainly took recourse to loans to maintain their expenditure and in the first two years of falling prices there was still ample cash in the hand of money-lenders, available for lending.

The total debt is really an artificial figure. Villagers were asked what loans they had taken. Then after learning the rate of interest and the amount said to have been repaid, the present value of the debt was worked out by simple arithmetic. By this method, a sum of Rs. 40 borrowed in 1928 at 48 per cent. per annum and Rs. 25 repaid, is calculated at Rs. 130, and Rs. 50 borrowed in 1928 at 37½ per cent., and Rs. 18 repaid, as Rs. 143. These rates of interest, which ordinarily vary from 3 per cent. per month to 1 anna in the rupee per month (36 per cent. to 75 per cent. per annum) can only be regarded as nominal. It is unlikely that any Court would decree such

sums as are due according to the strict letter of the bonds, and Mahajans certainly compound with their debtors for much smaller sums The original principal of outstanding loans was Rs 66,000, while even after deducting sums repaid the present nominal value is Rs 1,10,000 Probably the effective debt—what the money-lenders reasonably expect to receive—is not much more than half this sum

One small matter calls for note When calculating the present value of debts, the outstanding value of complete usufructuary mortgages was calculated at a share of the capital sum borrowed proportionate to the outstanding period of the mortgage Thus if Rs 50 was borrowed on complete usufructuary mortgage for ten years from 1336 to 1345, the present value was shown as Rs 25, i e , 5/10×50

Causes of debt—Circle Officers were asked to find out the reason for borrowing each loan It is well known that many loans, or rather acknowledgments of debts, are not new money, but only renewal of old loans Officers were asked to discover the causes of the original loan, and this instruction was usually followed For loans totalling about one-eight of the present value, no cause was given, or the reason was "to pay off old loans" Of the rest, more than a third is described as incurred for purchase of food, clothing or household expenses More than a fifth is said to have been borrowed because of marriages Purchase of land or payment of nazar and purchase of cattle are the next largest classes of debt and these four groups together account for four-fifths of the total debt Immediately, the query arises, "can we trust the villagers' own statements about the reason for borrowing?" It is not possible to obtain any evidence to check their statements and it can only be said that at any rate they have given consistent statements about the cause of debt to five different officers The biggest cause of debt "food, clothing, and household expenses" calls for comment One Circle Officer thinks that this is a reason for borrowing, which does not occasion any shame, and such debts are mentioned freely, where others may be concealed But such borrowing is bound up with the agricultural system of the area This is a paddy importing area Jute is sold, and articles purchased when there is cash in hand Paddy, however, is bought on credit throughout the year, and if the cultivator has not the cash to pay off the debt, he takes the easy course of executing a hand-note This is another reason for believing that much of the rural debt, although expressed in cash values, is not really borrowing in cash It is also likely that the sums so borrowed by account with mahajans include some loans taken for other purposes, such as payment for rent But it is not suggested that all the borrowing is in kind, and for reasons given later, it seems likely that at any rate before the slump, or in the early days of falling prices there was considerable cash borrowing Articles such as oil, dal, and clothes have to be bought for cash down In days of prosperity, much of the expenditure on these must have been done with borrowed money Figures show how frequently marriage ceremonies occasion debt, and also that litigation considered in relation to the country as a whole is of no particular importance as a cause of debt, though individual families may be ruined by litigation In all, only 38 families out of 508 which formed the subject of the enquiry, said they had ever incurred any expenditure for litigation Seventeen of the 38 lived in the two villages which were nearest to Gaibandha

Of the outstanding debts, the greater part was borrowed in the three years 1928, 1929 and 1930 Since then the amount of borrowing has slackened off The villagers were asked to give their debts They naturally described the debt as it stands after the last hand-note executed, or after the latest composition with their creditors It is never possible to distinguish how much debt is new money and how much is in satisfaction of existing debts by execution of fresh hand-notes, but from what is known of the amount of money available in different years it is reasonable to assume that many of the loans taken between 1928 and 1931 were new money Loans incurred before 1928 seem to have been nearly all satisfied and since 1931 there has been little borrowing The debt which must now be settled is that incurred in the period 1928 to 1931 This is not likely to be liquidated by fresh borrowing from the mahajans and rural banks which were the main sources of credit in the past Leaving aside the possibility of any large scale debt relief under Government auspices, it is probable that creditors will compound the debts on terms which are fair and equitable to both parties Signs are not wanting that this is actually being done A fair proportion of the loans which were stated to have incurred in 1934 are known to be compoundings of previous debts,—commonly on the "Kistibandi" principle In a "Kistibandi" settlement the debt is fixed at a certain sum which is to be paid off in so many instalments without further interest This indeed, is not always a method of settling loans, sometimes a new loan is given on terms that it will be paid off in instalments There is no provision for interest, but the sum mentioned in the bond is greatly in excess of the actual sum borrowed However Rs 3,411 out of the Rs 4,521 said to have been borrowed in 1934, is fairly certainly settlement of old loans

The Rent-situation —Figures average out at 2½ years' rent in arrears at the end of 1340 (rents for 1340, if unpaid were classed as arrears) But it must not be understood that no rent has been paid for the last 2½ years These are arrears which have accumulated gradually, and rent is still paid in part

Again, it is certain that many cultivators are even, in the best of times in arrears with their rent During field work, or attestation one commonly finds receipts given in 1335 for rent due in 1333 or even earlier and this at a time when the prices of agricultural produce were the highest ever recorded

In mouza Manmathapur the sum nominally payable on debts was Rs 1,097, but only Rs 200 were paid in 1340 B S In Kachua, out of Rs 2,379 due, only Rs 154 is reported to have been paid This shows that if the sums payable on debts according to the stipulation in the bonds were actually paid, cultivators would pay more to mahajans in interest, than they pay to their landlords in rent Actually, they are now paying their landlords much more than they are paying their mahajans

Family budgets —Figures given for family budgets must be accepted with caution Compilation is beset with traps for the unwary, but all officers worked on the same principle They endeavoured to find out the family consumption of rice, and then entered the value, in current prices, of the paddy equivalent Dal, mustard oil, spices, salt, tobacco, clothing and kerosine are normally bought for cash Here the usual, and safest method of proceeding was to find out how much was spent

at every hat, and then to multiply until the annual expenditure was found This method lends itself to magnifying every error, but produced notably consistent results by the different officers For fish, meat, vegetables, milk and betel nuts it was tried to proceed on the principle of asking how much was bought at every hat, and for how many months Then it was tried to find out how much was obtained by own production, or how much fish was caught by the family, and then was assigned a value to the quantity, adopting current market prices This may not be strictly accurate, but is the best possible In Faridpur Mr Jack thought it impossible to give a cash value to the fish caught and consumed by the family The officers have done the best they could by asking what would have been the price of the fish if bought, or for how many months in the year fish was bought and then giving a proportionate value to the fish caught

The importance of rice in the cultivators' diet is apparent The cash value of rice consumed is everywhere (except one mouza) given at from two-thirds to three quarters of the cash value of the total food stuffs consumed

Excepting rice, the expenditure on other items of recurring expenditure, clothing is evidently the biggest item Tax has been shown as a recurring charge as even now unlike rent and interest it is paid regularly If in any village there is much unpaid or irregular payment the cause will certainly be not economic difficulty, but slackness among the collecting authorities At an average of 4 annas per head per year, the Union Board rate only amounts to about "1/64" to "1/80" of the expenditure on food

The article which shows the most consistent level of consumption is salt The consumption works out at 9 or 10 kutcha seers per head per year (including salt for cattle) The demand is completely inelastic

No figures have been given for item of "spasmodic" expenditure, such as cost of births, marriages and deaths, and cost of house building and repairs The Faridpur method was followed, when averaging these costs to one year It was assumed that one birth, one marriage and one death would occur to every member of the family in 30 years, and the aggregate cost of one of each class of ceremony for each member was divided by 30 to give an annual figure The method cannot be vouchsafed to be actuarially sound, but it was peculiarly liable to error in the circumstances of the present, when standards of expenditure have fallen heavily in the last 5 years People are at best vague when giving the cost of a wedding Some may give the amount which they would like to spend or think ought to be spent, and others are guided by their ideas of what was spent in the last wedding in the family This may have been 5 years ago, when there was much more money available

Similarly no total of "income" or expenditure has been given Figures show a consistent excess of expenditure over income, even if allowance be made for non-payment of the rent and interest which is due according to the record-of-rights and the terms of bonds

It is believed that villagers consistently tend to underestimate their income and some of the richer may for "prestige" exaggerate their expenditure.

Note for the Statistical Sub-Committee by the Secretary to the Board of Economic Enquiry.

Regarding the problem of rural indebtedness, Government have referred under paragraph 4 (i) of Resolution No 6159-Com , dated the 1st December 1933, concrete suggestions in broad outlines for conducting enquiries by the Board of Economic Enquiry in the Note for the Board, which has been circulated

These are—

(1) Prevention of extravagance in new borrowing

(2) The liquidation of existing debt by—

(a) Debt conciliation on voluntary basis of debts up to Rs 1,000

(b) Compulsory adjustment of accumulated interest

(c) Rural Insolvency Act

(3) Reorganisation and expansion of co-operative societies including land mortgage banks on paper lines, and setting up of other approved credit institutions to take over adjusted debts

It has been pointed out that the schemes suggested above will depend entirely on two essential features, viz ,—

(a) Existence of sufficient surplus to pay off the adjusted debt

(b) Existence of co-operative banks, or other approved credit institutions to take over the adjusted debt

The Sub-Committee is concerned with enquiry under (a)

Statistical Registers, Reports and Lists containing general information

There are registers in each district office based on the Revenue Survey in the middle of the last century showing the villages under each pargana and the area appertaining to each separate estate within the village as also the villages or portions of them appertaining to each estate, the area of each estate lying within each village the land revenue for each estate In the Land Revenue Administration Reports published annually by the Government the total number of estates permanently and temporarily settled and also under direct management in each district, the land revenue and road and public works cess payable, the amounts paid, the amount of arrears, the prices fetched at public auction and various other information is given The reports on the management of the Court of Wards also published annually give the rentals, collections and arrears, debts and repayment of each estate under its management The Annual Report of the working of Co-operative Societies in Bengal gives information regarding (1) number of societies, (2) number of members, (3) amount of loans, (4) loans due by individuals, (5) overdues and (6) repayment by members and other details

Various laws have been passed for codifying the rights and status of cultivators, the latest amendment of the Bengal Tenancy Act gives them right to transfer their lands without the consent of landlords The provisions for enhancements of rents of cultivators are mainly on the basis of higher rates prevailing for similar lands in the neighbourhood

and in consideration of the rise in prices of the staple food during the currency of the present rent For the investigation of the latter by Courts a Statutory Price List of Staple Food-crops in the Local Areas of Bengal is published quarterly and an annual compilation made therefrom by Government in the Revenue Department under section 39 of the Bengal Tenancy Act This is only for "rice" which is the staple food-crop of Bengal

The Director of Agriculture publishes weekly with the Weather and Crop Reports the price of common rice for the subdivisional stations of districts He also publishes a fortnightly Prices Current (retail) of common rice and salt in some specified marts of every district A fortnightly Prices Current (wholesale) is also published by him of some important marts in the Presidency of the prices of paddy (unhusked rice)—best and common, rice—best and common, wheat, raw cotton, coal, raw jute, and gur (sugarcane) All these prices are published in the Government *Calcutta Gazette* The Season and Crop Report gives the harvest prices of the following crops for each district, viz, winter and autumn rice, wheat, barley, gram, gur (unrefined), cotton, linseed, rope and mustard, jute and tobacco leaf

The agency employed for the collection of statistics is the same for both departments, who are responsible local officers Their duty requires them to visit every mart personally and ascertain the information from respectable shopkeepers

To safeguard the interests especially of cultivators, who generally hold no leases for their lands, a record-of-rights, district by district, was undertaken to be prepared by Government since 1900 and these will be completed within the next 3 or 4 years The record-of-rights involves a survey and enquiry of each plot of land, preparation of a record showing the fields appertaining to each tenancy, the classification of land of each plot, the rent paid to the landlord, the rights under which the tenancy is held and other details of the tenancy Similar record is prepared for every tenure-holder under a proprietor and for the proprietor as well, thus giving a comprehensive record of all interested in land During the course of preparation of record-of-rights of a district various items of statistical information have been collected, for the district as a whole

These are mainly (1) the different classifications of lands and the area under each, (2) the area under different crops, (3) the statistics of land tenure, i e, the distribution of land under different classes of owners, the incidence of rent and cess, (4) Agricultural stock statement showing the number of ploughs, carts, boats, etc, and the livestock

Report and Enquiries regarding economic position with special reference to indebtedness

In some of the earlier operations, detailed statistics have been collected regarding the economic condition of the people of the districts —the most detailed of these is that of Faridpur the main results of which have been collected in Major Jack's book "Economic Life of a Bengal District" Most of the original statistical forms and the detailed tabulation from which the tables in the book have been compiled covering over one hundred volumes are in the Record-room of the Faridpur Collectorate Detailed enquiries regarding indebtedness were

also made in Dacca and Jessore districts Settlement Reports of Dacca, Mymensingh, Midnapore and Jessore of the three districts of East, West and Central Bengal will show the estimate of the economic position by the Settlement Officers Crop-cutting experiments were conducted by officers for ascertaining the yield and the results further verified by reliable enquiries from cultivators themselves Typical family budgets of cultivators were also prepared in course of preparation of record-of-rights All these informations have been incorporated in the Final Reports of Settlement Operations of districts It is not possible to enumerate the different heads of subjects dealt with in these reports, which are all printed At present the Final Reports of following districts with years of operation are available —

(1) Bakarganj (1900-08),
(2) Faridpur (1904-14),
(3) Dacca (1910-17),
(4) Mymensingh (1908-19),
(5) Midnapur (1911-17),
(6) Bankura (1917-24),
(7) Noakhali (1914-19),
(8) Tippera (1915-19),
(9) Jalpaiguri (1906-16),
(10) Rajshahi (1912-22),
(11) Pabna (1920-29),
(12) Bogra (1920-29),
(13) Nadia (1918-26),
(14) Jessore (1920-24) and
(15) Khulna (1920-26)

The Settlement Reports of Murshidabad, Birbhum and Chittagong are under preparation and that of the 24-Parganas has not yet been published Settlement Operations are in progress in the districts of Burdwan, Malda Hooghly and Rangpur and Dinajpur and Howrah will be taken up next year

Information regarding economic position has been collected from time to time

In 1926, Mr Burrows, the then Collector of Faridpur, made an intensive enquiry of a village in Faridpur district at the instance of the Royal Commission on Agriculture An extract from his report regarding indebtedness is appended to the Report of the Commission

The Bengal Banking Enquiry Committee had an intensive enquiry in 1929 through non-official and official agencies about the economic position of agriculturists, in selected areas of certain districts The forms filled in by the enquirers are available Apparently the Committee did not make much use of the results as they "suffered somewhat in precision and thoroughness" The results of the intensive enquiry in one village Karimpur of the Bogra district have been utilised in the Report of the Committee

An enquiry was made by the Collectors in November of 1933 and March of 1934 regarding the stocks of crops held by cultivators and generally into their economic position

The latest enquiry on a detailed basis have been called for in Form No 1 and No 2 which were circulated to all the members of the Board at the first meeting It has been arranged that for the 25 plains districts in Bengal, there will be enquiries made in about 200 villages The enquiry will be limited to the families of persons paying fixed rents or having rights of occupancy in land as these classes of people form the major portion of the agricultural population and also they have good security to offer on which mortgaged loans may be given

It will be for the Sub-Committee to consider which of the information contained in statistical Registers, Reports, Lists and Forms may be utilised directly or indirectly for the purposes of their enquiries regarding the proportion of cultivators with the requisite margin The Sub-Committee may indicate the lines on which any of these should be tabulated and collated and devise the form for such tabulation and collation If, however, the available materials are found to be insufficient to form an estimate of the proportion referred to in the Government Note, the Sub-Committee may indicate if further investigations are necessary Also if the materials available will not serve the purpose of arriving at the required estimate, it may suggest in what other form information should be collected and the agency for conducting the enquiry

Note for the Sub-Committee to investigate the possibility of debt conciliation and liquidation amongst agricultural population (by the Secretary, Board of Economic Enquiry).

The object of this note is to summarise the legislations and the administrative measures introduced from time to time for dealing with indebtedness in general, and of agriculturists in particular The executive measures undertaken have also been dealt with Their defects and shortcomings have been prominently brought forward in paragraphs 12 to 19 with a view that the Sub-Committee may, in devising legislative and executive measures for dealing with the question, advise as to the means by which they can be avoided or rectified

(A) General Legislations.

I —*History and legislation regarding Money-lending*

2 *Rule of Damdupat* —According to Hindu Law, the rule of damdupat is that the interest exceeding the amount of the principal cannot be recovered *at a time*, though the total amount paid from time to time may far exceed the capital This rule of law is not now applied to the whole of India It is applied to the Presidency of Bombay, the Provinces of Berar and Sindh, Santal Parganas and the portion of the City of Calcutta within the jurisdiction of the Original Side of the High Court But it does not apply to the Presidency of Bengal outside the area mentioned above This rule is not applicable in Madras

The rule of damdupat only exists so long as the relationship of debtor and creditor exists but not when the contractual relation has come to an end by reason of a decree

The principle of damdupat is not applicable to a decree for puisne mortgage nor to interest accruing after the institution of the suit The interest on arrears may be capitalised by subsequent agreement, but prospective interest cannot be capitalised The rule of damdupat is not affected by the Transfer of Property Act and the Indian Contract Act or the Acts relating to interests

But it is so restricted that there is no limit to the amount of interest if the interest be paid in smaller sum than the principal In this view, a judicial officer urged before the Provincial Banking Enquiry Committee that the rule to be really effective a creditor shall never be able to receive more than double the amount advanced and it should be made a Statutory Act (*vide* Replies to Special Questionnaires at page 27 of the Bengal Provincial Banking Enquiry Committee's Report, Volume III—Evidence)

The rule of damdupat was accepted in principle in enacting the Bengal Money-lenders' Act, 1933 In section 4 it is enacted that in case of loan prior to the commencement of the Act, the Court shall limit the amount of arrears of interest to the amount of principal unless there be satisfactory reasons for not enforcing the claim earlier Section 6 of the Act, which comes into force throughout the Presidency from the first of July 1934, enacts that no Court shall, in respect of any loan made after the commencement of the Act decree on account of arrears of interest a sum greater than the principal of the loan and an amendment to insert "together with interest already paid" was rejected

3 *Rule for adjustment of debt in 1772*—Even at the beginning of the British Rule we find that prevalent usury in the province caused concern to the administrators On taking over the administration of the province, Warren Hastings saw its evil effects and in 1772 the Committee of Circuit framed the following rule regarding adjustment of debts and rates of interest —

"That in adjusting the claims of old debts it shall be observed as a rule that they bear no further interest after such adjustment but that the amount shall be payable by *kistibundee* (instalment) according to the circumstances of the party, and as the rates of interest hitherto authorised by custom have amounted to the most exorbitant usury, the following rates are now established to be received and paid as well for past debts as on future loans of money, viz , on sums not exceeding 100 rupees principal, an interest of 3 rupees 2 annas per cent per mensem or ½ anna in the rupee On sums above 100 rupees principal, an interest of 2 rupees per cent per mensem The principal and interest to be discharged according to the conditions of the bond and all compound interest arising from an intermediate adjustment of accounts to be deemed unlawful and prohibited, when a debt is sued for upon a bond which shall be found to specify a higher rate of interest than the established rates, the interest shall be wholly forfeited to the debtor and the principal only recoverable, and that all attempts to elude the law by deductions from the original loan under whatever denomination shall be punished by a forfeiture of one moity of the amount of the bond to the Government and the other half to the debtor "

4 *Regulating Act of 1774*—By a Regulating Act of 1774 (13 Geo Ch 63), the maximum rate of interest as applicable to European British subjects in India was fixed at 12 per cent

5 *Bengal Regulation of 1780* —The rates of interest were reduced to twelve per cent and twenty-four per cent by a regulation of 1780 The regulation fixed the rate of interest irrespective of stipulation of higher or lesser rates of interest The full advantage of the regulation for the purpose of adjustment of debts was, however, only taken by land-owners who prayed for adjustment and we find British officers deputed in the district of Mymensingh to adjust debts between zemindars and money-lending Sannyasis One noticeable point in these adjustments is the simplicity of procedure by which they were arrived at The officers called for accounts from both parties and after hearing them and examining the papers produced, recorded their decisions in a tabular statement showing the claims of the creditor and debtors and the decision which was a decree

The compulsory adjustments were, however, only of the interest in cases where it exceeded the rate laid down in the Regulation The Regulation was embodied in one of the series of Regulations passed in 1793

6 *Act XXVIII of 1855* —The laws against usury were repealed in England in the middle of the nineteenth century and following its wake the usury laws in India were repealed in 1855 by Act XXVIII of 1855 The law of damdupat remained in force in the localities mentioned before

7 *Indian Contract (Amendment) Act of 1879* —Subsequently, however, the unrestricted usury attracted the attention of Government By the Indian Contract (Amendment) Act of 1899, the courts could give relief to debtors in cases of unconscionable bargains on proof of undue influence or where the bargain was by way of penalty

8 *Usurious Loans Act of 1918* —The Usurious Loans Act of 1918 empowered a court, where there is reasonable ground to believe that the rate of interest was excessive and the transaction was substantially unfair, to reopen the transaction and relieve the debtor of excessive interest even though there is an agreement to close previous dealings and open a new account

9 *Usurious Loans (Amendment) Act of 1926* —The Usurious Loans (Amendment) Act of 1926 empowered suits by debtors and for redemption of securities The period of limitation was extended to twelve years These are the all-India legislations directed against usury

(B) Provincial Legislation.

10 Provincial Legislations against usury and regularisation of money-lending are summarised below —

(1) *The Punjab Regulation of Accounts Act, 1930* —It prescribes the keeping of accounts by creditors and the supply of statements of these accounts every six months to individual debtors

(2) *The Bengal Money-lenders Act, 1933* —The Act applies the rule of damdupat as stated before It lays down that rates of interest above 15 per cent in case of secured loans and 25 per cent in case of unsecured loans or where there is a stipulation of rest at intervals of less than six months are to be presumed to be excessive under Usurious Loans Act It prohibits the recovery of compound interest at rate of more than 10 per cent This Act enables the debtor to obtain full particulars of his debt from his creditor

(3) *The Usurious Loans Central Provinces (Amendment) Act, 1931*.—It follows the Bengal Act.—It lays down that where the rate of interest is more than 18 per cent. in cases of unsecured loan or more than 12 per cent. in case of secured loans or where there is a stipulation for rests at intervals of less than six months the rate of interest may be deemed to be excessive. The rate for future loans has been put at 10 per cent.

(4) *The Assam Money-lenders' Act of 1934*.—The Assam Money-lenders' Act of 1934 has been recently passed. It is on the lines of the Bengal Act but the rates of interest have been reduced.

Similar provincial legislations are in contemplation in the Central Provinces, Bombay and the Punjab.

(C) Special Legislation for Agriculturists.

11. Special Legislations have also been undertaken from time to time in other provinces to protect agriculturists. The most important of these are the Deccan Agriculturists' Relief Act of 1879 and the Punjab Land Alienation Act of 1900.

The Deccan Agriculturists' Relief Act of 1879.—As to the working and amendments of the former, a reference is invited to Enclosure A which contains extracts from the Report of the Royal Commission on Agriculture.

The following extract from the report of the Committee appointed by the Bombay Government in 1920, to consider the repeal of the Deccan Agriculturists' Relief Act is interesting:—

"It must be acknowledged that since 1912 the economic condition of agriculturists as a class has much improved and it promises to improve still more as the country advances in industrial development. We think, therefore that the time has come for bringing agriculturists under the provisions of the law which apply to other classes."

12. *The Punjab Land Alienation Act of 1900*.—The Punjab Land Alienation Act of 1900 came into force in 1901. Its main object was to prevent the small peasant proprietor being expropriated by the village money-lender. By it the non-agriculturists classes have been greatly restricted in the acquisition of land, they are not allowed to buy land from a member of the agriculturist tribe nor may they take it in mortgage from the latter for more than twenty years. At the end of the period the mortgage automatically lapses without payment and so the nominal value of a debt secured by mortgage varies with the age of the mortgage. Mr. Darling remarks that there is general agreement that this form of mortgage is disliked by all but the idler cultivators as it involves parting with land for a long period and debars an owner from taking advantage of the rising value of land to redeem a portion of it in a year or two. But it has given opportunity to agriculturist money-lender. The *Sahukar* deprived by the Act of the security of the land can only lend up to the limit of what can be repaid from the produce, but the agriculturist money-lender to whom the Act does not apply can afford to lend up to the value of the land. The latter is therefore in a stronger position of the two, and ultimately he is the more formidable for his object is the land and to obtain it he will press his client till he is compelled to sell. On the other hand the *Sahukar* depending solely on the produce hesitates to drive a client to extremes lest he should give up producing. At first after the passing of the Act, there was restriction of loan and consequent decrease of debt (from

Rs 16 crores to Rs 9 crores decades 1893-1902 to 1903-12) but with advance in prices and owing to the growth of agriculturist money-lenders the situation adjusted itself and the debt rose to Rs 30 crores in the decade 1913-22 Thus "with the tendency of all protective legislations to defeat its own object, the Act fostered the growth of the agriculturists money-lender and borrowing soon became easy as ever"

13 *Restriction of transfer of land under Chapter VIIA of the Bengal Tenancy Act*—Restriction against lease or transfer of land by aboriginal tribes as contemplated in Chapter VIIA of the Bengal Tenancy Act was enacted in 1918 but it affords no real protection The evasion is effected by the aboriginal leaving the land under pressure of the money-lender and executing a deed of relinquishment in favour of the landlord and then the money-lender or the intending purchaser gets settlement from the landlords So in the end the value which could have been secured by open sale is not obtained In Malda, the application of the Chapter amongst the Santals and the Oraons has failed because to save distraint of their crops on account of debts, the Collector had to agree to usufructuary mortgages

14 *The United Provinces Agriculturists Relief Act, 1934*—The United Provinces Agriculturists' Relief Bill 1934, has been passed by the Legislative Council but has not yet received the assent of His Excellency the Governor Its main provisions are —

(i) To empower courts when passing decrees against agriculturists to fix instalments payable on fixed dates which may extend over a period of four years in the case of small agriculturists and over twenty years in other cases

(ii) To limit the rate of interest admissible after a decree has been passed to 2 per cent in certain cases and 3 per cent in other cases

(iii) To empower courts to fix instalments even in cases in which decrees have been passed before the passage of the Bill

(iv) To restrict mortgages with possession made after the passage of the Bill to mortgages which give possession with the right to all the profits of the land for a fixed period not exceeding twenty years on the condition that that period of possession will satisfy the debt

(v) To facilitate the redemption of mortgages

(vi) To limit the rates of interest on loans taken after the passage of the Bill to rates notified by the local Government as the prevailing rates The rates to be so notified will be based on, though they will exceed, the rate at which of the local Government of India

(vii) To limit the rates of interest recoverable on loans taken since 1st January 1917

(viii) To prescribe rates of interest recoverable on loans after a sum equal to 100 per cent of the principal in the case of secured loans and 150 per cent in the case of unsecured loans has been realised or has accrued as interest

(ix) To empower courts to reopen decrees passed on loans incurred since 1st January 1917, and to pass amended decrees for the amount payable if the interest were limited as in (vii) above

(x) To require creditors to maintain a correct account for each agriculturist debtor for each loan separately and to supply the debtor annually with a statement of such account

15. As has been stated in paragraph 2 of the Government Note, these legislations cannot afford a complete solution of the problem of rural indebtedness, although they should relieve some of the worst evils of uncontrolled usury.

Paragraph 4 of the Government Note regarding prevention of extravagance in new borrowing is for prohibition by legislation, recovery of any charges in regard to new debts by the legal process of the sale of the land and crops belonging to the debtor. But the provisions of such restrictions are not to apply to new loans granted by Co-operative Credit Societies, Land Mortgage Banks and other approved organisations. It is presumed that the principle underlying the suggestion is that while restrictions are to be imposed on new loans from outsiders, the credit of cultivators which has been enlarged greatly by the transferability of holdings is not to be decreased in any way and they will be able to take loans for legitimate and necessary purposes from approved credit organisations at fair rates of interest. It is the restriction of improvident borrowing from unscrupulous money-lenders which is to be aimed at by legislation.

16. Inculcation of the principles of thrift by co-operative organisations had not any marked effect on the members of the Rural Co-operative Societies as will be seen from the following summary of replies of some of the Central Co-operative Banks regarding their constituent rural societies.

In the case of Khulna Central Co-operative Bank, 'as regards the total amount of indebtedness of the members of the rural societies whereas the outside debt had been reduced, the total indebtedness has not been reduced.' This is said to be due to the fact that 'the landed properties on the whole have been increased.' But at the same it is remarked that although the Central Bank does not allow members of affiliated societies to raise loans from outside they do it surreptitiously.

The Nalhati Central Bank reported that all debts of 41 rural societies were paid off by Central Bank in different periods, but a regrettable feature was that all of these societies had incurred debt again.

The Dacca Central Bank reported to have reduced the debts of 6,685 individual members of rural societies to outside creditors from Rs. 7,65,299 to Rs. 4,91,894. The Comilla Central Bank reported to have minimised borrowing by members.

It is for the Sub-Committee to consider on what lines legislation should be undertaken—either by the amendment of present legislation or by new legislation—for restriction of new borrowing generally or supplementary to any legislation for debt adjustment.

II.—*Debt Conciliation on a voluntary basis.*

17. In paragraph 6 of the Government Note, debt conciliation on voluntary basis has been dealt with. The operation hitherto undertaken in the different provinces has been like ordinary arbitration except that it is carried on by Government officials, the proceedings have no support or authority from any legislative enactment. An account of such operations in the Central Provinces is given in the Indian Banking Enquiry Committee's Report. It will be seen that creditors often repented of their generosity but probably owing to Government officers making the settlement did not resile from the settlement.

18 *Settlement with money-lenders by the Co-operative Department*—An interesting note on "Settlement with Mahajans" in the Pabna district is given in the Bengal Co-operative Journal, 1919 The principal was Rs 13,406-5-9, interest Rs 12,152-11-9, total Rs 25,559-1-6 By settlement the creditors accepted Rs 10,136 in cash, Rs 5,658-15-6 to be paid by instalment The writer remarked — "The co-operative worker finds the Mahajan quite content sometimes to accept the original principal in cash either in one sum or by the instalment system, because it gives him fresh ready money for investment"

19 *Redemption of morgages amongst the Mundas*—Redemption of mortgages was once undertaken by the Bengal Government for the Mundas An account of this from the Bihar and Orissa Banking Enquiry Committee's Report is summarised below —

In 1904, an enquiry was undertaken by Government of Bengal regarding usufructuary mortgages by Mundas in the Ranchi district They were classified under two heads—

(*a*) mortgages, the amounts of which are less than the value of the lands mortgaged,

(*b*) mortgages the amounts of which exceed the value of lands mortgaged

No action was proposed to be taken against (*b*), as regards (*a*), Government proposed to distribute loans under the Agriculturists' Relief Act The Deputy Commissioner did not recommend the scrutiny of debts with a view to reducing those which were found to be exaggerated on the ground that legislation would be required and the general result would be unsatisfactory In actual working the cases in which debt exceeded the value of land and in which the term of mortgages expired or was about to expire were taken up The lands were mortgaged to Government and the recovery was by annual instalment, the period of repayment varying with the proportion that the debt bears to the value of the holding

It was found that for an area 1 250 square miles, the total amount of the mortgages was Rs 4,73,580 In cases involving Rs 85,505 the estimated value of land exceeded the amount of the mortgage

During the first year (1906) Rs 70,191 was distributed as loans During the next year Rs 36,000 was distributed During the third year Rs 17,178 was advanced In 1910, only Rs 4 112 was actually distributed In 1910, the Deputy Commissioner doubted the value of the scheme He pointed out that Rs 1,48 368 had been advanced Out of the total amount due in repayment and interest over 41 per cent stood unrecovered The collection was mostly by certificate procedure The Subdivisional Officer of Khunti reported that the loans have entirely failed in their object

20 *The Central Provinces Debt Conciliation Act, 1933*—Copy of the Central Provinces Debt Conciliation Act is given in Enclosure

21 *The Madras Debt Conciliation Bill*—The Madras Debt Conciliation Bill is intended to apply to agriculturists whose debts exceed Rs 150 and is to be restricted in the first instance to debtors whose debts aggregate to below Rs 25,000 Leave to introduce this Bill was granted by the Legislative Council on the 18th March 1934 It follows generally the lines of the Central Provinces Debt Conciliation Act

22 Several points have been suggested in the Government Note in this connection for the consideration of the Board These are —

(1) The desirability of such legislation

It may be stated that necessity for legislation is to give powers to the agency employed for the purpose of debt conciliation to bring together the parties, to have their statements as also of witnesses and lastly to record the agreement arrived at and register it so as to give it validity

(2) The agency for such conciliation

The agency in the Central Provinces is a debt Conciliation Board set up by Government Some competent authorities in this province are, of opinion, that instead of a Board the work can be done more expeditiously by itinerant Revenue Officers of the status of Sub-Deputy Collectors conversant with local conditions

(3) The amount of debt that should be taken up by the conciliation authority

The proposal is to restrict conciliation of debt up to Rs 1,000

(4) The area that should be selected for the operation of the Act

III —*Compulsory Reduction of Interest*

23 In paragraph 7 of the Note, Government have referred the question of compulsory reduction of interest The scheme set forth provides for legislation under items (*c*) and (*d*) It is for the Sub-Committee to consider the lines on which legislation shall be undertaken The Central Provinces Debt Conciliation Act provides for certification of debt in case there be no voluntary agreement between the parties, and the amount of debt so certified is to be recovered like voluntarily adjusted debts through Civil Courts The Government scheme, however, contemplates under (*a*) the taking over of such debts by Co-operative Credit Societies, Land Mortgage Banks or other approved credit institutions, and so consequently the necessity of enquiry about surplus income as in (*b*) arises In the circumstances, it is perhaps necessary for the Sub-Committee to consider on what lines legislation under (*c*) and (*d*) should be based to safeguard the institutions under (*a*) In view of the fact that the creditors will get back the amount of adjusted debt either in cash or its equivalent in good securities, it may be contemplated that the adjustment should be on liberal basis from the debtor's standpoint

IV —*Rural Insolvency Act*

24 In paragraph 8 of the Government Note, the Board has been asked for opinion as to legislation for a Rural Insolvency Act In the Reports of the Royal Commission on Labour and the Civil Justices

Committee there are references to insolvency regulations It will be for the Sub-Committee to decide the form of Rural Insolvency Act suitable for the province

The points for consideration and decision of the Sub-Committee may be summarised as follows —

1 What class or classes of agriculturists (according to the definition of the Bengal Tenancy Act) may be considered as having good security to offer or whose credit is reasonably good?

2 Taking the classification under 1, what is the proportion of such class of agriculturists in debt who (*a*) cannot meet their existing debt obligations given the present level of prices of agricultural produce or (*b*) are unable through existing ordinary credit organisations to raise money on reasonable terms (The decision will be mainly based on the report of the statistical Sub-Committee)

3 Are any measures desirable and practicable —

(*a*) For the reduction of debt of such class of agriculturists in the first instance?

(*b*) For restraining them from borrowing from outsiders in the future, if their present debts are reduced and transferred to a recognised credit society

4 Is legislation of an emergency or a permanent character necessary to create statutory powers—

(*a*) For the carrying out of debt conciliation schemes on a voluntary basis?

(*b*) For the compulsory reduction of interest?

(*c*) For the compulsory recording of debts or licensing of money-lenders

(*d*) In the form of a Special Rural Insolvency Act?

(*e*) For restraining fresh borrowing except for valid reasons?

5 If legislation is decided on, is it desirable to have a Special Sub-Committee from the member of the Sub-Committee to frame the scheme of such legislation?

6 If so, what should be the personnel of such Special Committee and the terms of reference and the time by which it should report? (The terms of reference may be for drafting in the form of Bills on the different items as in 4)

21. *Suspension of pending application or suit*.—When an application has been made to a Board under section 4, any suit or other proceedings then pending before a civil court in respect of any debt for the settlement of which application has been made shall be suspended until the Board has dismissed the application or an agreement registered under sub-section (*2*) of section 12 has ceased to subsist.

22. *Submission of reports by Boards regarding sums due to Government.*—Where in the course of an inquiry into an application made under section 4 a Board finds that there is any sum owing to Government on account of loans advanced under the Agriculturists' Loans Act, 1884 (XII of 1884), or the Land Improvement Loans Act, 1883 (XIX of 1883), or otherwise the Board shall report this fact through the Deputy Commissioner to the Commissioner.

(*i*) generally, for the purpose of carrying into effect the provisions of this Act.

Note for the Sub-Committee on the organisation and provision of financial machinery for the purpose of liquidating agricultural debt (by Secretary, Board of Economic Enquiry).

This note is a rough attempt to review the respective tasks before the Statistical Sub-Committee and the Financial Sub-Committee To a great extent it appears their work will overlap

The Statistical Sub-Committee will examine all the information bearing on the extent of the indebtedness of the agricultural population and the resources at their command for paying interest and their prospects of clearing it The intensive enquiries of over 7,000 families are being analysed and figures of income, expenditure and debt, will be supplied separately for those families whose debts (a) exceed 2 years' income, (b) are between one and two years' income, and (c) are below one year's income It is hoped that the Statisticians will be able to advise how far these figures can be taken as representative of different parts of the province by comparing and testing items of information which have been previously collected for the whole province, e g , the average number of persons in a family, the average amount of land held, the average amount of rent paid, the average produce of different crops The Sub-Committee as a whole may then be in a position to recommend that the Government scheme of reducing the debt by conciliation and transferring the balance to Land Mortgage Banks, Co-operative Banks, or any other similar institution should be tried in respect of say 40 per cent of the agricultural families in the province or in certain districts or subdivisions

2 *Control* —It has been pointed out in the Government Note that the co-operative movement in Bengal has suffered from inadequate control and guidance It may, perhaps, be mentioned that Mr Wolff has often emphasised the need of a considerable measure of Government control in view of the special circumstances of India The word control represents in all—three different processes, supervision, audit and inspection Although audit and inspection are provided for in the Co-operative Societies Act of 1912 there is no specific provision dealing with supervision

The foremost point of importance for decision of the Sub-Committee would, perhaps, be as to the form and nature of control, viz , administrative and financial, that should be exercised by Government with regard to the suggested machineries for taking over the adjusted loans Because on it will depend the whole structure of the organisation

If the Sub-Committee decides on a close control and supervision by the Government the nature of control and the approximate strength and cost of the supervising and audit staff required would have to be considered by the Sub-Committee to judge of the feasibility of the proposal

3 *Finance* —The next point that may be considered by the Sub-Committee is regarding the financing of the suggested organisations The defect in the present type of Co-operative Societies, as has been stated in the Government Note, is that they are financed by short-term deposits which is unsuitable to supply the long-term loans required by agriculturists for redemption of debts The Central Banking Enquiry Committee has suggested that in such cases financing should be by means of debentures as will appear from the scheme of the Committee

in the Statement. The Sub-Committee will be in a position to form an idea of the indebtedness of the different main areas of the province on the estimate of the statistical Sub-Committee.

It may be stated for the consideration of the Sub-Committee that under a properly organised system controlled and regulated by Government, the necessary finances can be raised on more favourable terms. In this connection the possibilities of securing help and advice from the agricultural credit department of the Reserve Bank may be considered coupled with the question of what security can be offered.

After dealing with the two main common points regarding the credit organisation, the Sub-Committee may, perhaps, consider the types of the different organisations that would be suitable to meet the needs of different areas or different classes of debtors.

4. (1) *Co-operative Societies.*—The defects in the present type of Co-operative Societies have been dealt with in the Government Note. It will be for the Sub-Committee to suggest a suitable type of Co-operative Credit Society that can be organised under the existing Act or an amended Act to meet the purpose.

(2) *Land Mortgage Banks.*—In the Statement the schemes for organisation of the Land Mortgage Banks as suggested by the Central Banking Enquiry Committee and that for the experimental banks referred to in paragraph 9 of the Government Note have been shown.

It will be for the Sub-Committee to consider the type that will be suitable in the special conditions prevailing in the province, and if any modifications are necessary.

5. *Approved Credit Organisation.*—Approved credit organisation is a very wide term. It is presumed by some competent observers that they may be institutions financed through Government, e.g., by debentures with interest guaranteed by Government as in case of land mortgage banks or from funds under the control and management of Government or they may be quite independent of the financial help from Government, subject, however, to the close supervision and audit of Government as contemplated before. It has been stated in paragraph 4 of the Government Note that the proposed organisations would be exempt from any restrictions contemplated to be imposed on private money-lenders and in the scheme suggested in paragraph 7, it has been stated that the adjusted debt would be transferred to the credit organisations. It has, however, been strongly emphasised that the credit organisation would require careful supervision. It would not be just to the original creditor to compel him to accept a smaller amount that was due unless it were possible to give him the assurance that his new debtor (the creditor organisation) would not default.

In the case of the first type of approved credit organisations, there is no danger of the assurance being wanting. But considering the vastness of rural indebtedness which has been estimated by the Provincial Banking Enquiry Committee at rupees one hundred crores, some think it to be worth while to consider the possibilities of utilising the existing credit organisations of individual money-lenders and joint stock companies carrying on loan business. Some restriction has been imposed regarding the keeping of proper accounts and furnishing of the same to a debtor and penalty for non-compliance under sections 7 and 8 of the

Bengal Money-lenders' Act But if the existing organisations are to take a share in the responsibilities and privileges of the suggested approved credit institutions, they must subject themselves to far greater and closer restriction and supervision

6 If any scheme for the transference of debt to Government controlled banks is approved, it may be necessary to suggest legislative measures not only for preventing the debtors borrowing outside their own re-organised banks, but to ensure that if the debtors default in payment of interest without very good cause their lands should pass to the Bank without expensive and protracted litigation—the apprehension of which might prevent the bank from being able to sell the lands or settle them with other persons, in which case the banks would be bankrupt in a few years

Consideration of this difficulty may not be primarily the duty of the Finance Sub-Committee but its ideas on the subject will certainly be welcomed

7 A statement comparing the schemes for Land Mortgage Banks as suggested by the Indian Central Banking Enquiry Committee and the one adopted by the Co-operative Department, Bengal, is attached

8 The points for decision of the Sub-Committee may be summarised as below —

(1) To what extent is it desirable or practicable that adjusted debts should be taken over

(*a*) by Co-operative Credit Societies,

(*b*) by Land Mortgage Banks and

(*c*) by approved credit organisations

(2) In case of 1(a), (i) what should be the scheme of these societies and (ii) what kinds of loans should be financed by them

(3) In case of 1(b), (i) should these Land Mortgage Banks be formed with direct Government support or through Co-operative Organisations, (ii) what kinds of loans should be financed by them and (iii) what should be the general scheme of these Banks

(4) In case of 1 (c), what shall be the scheme of approved credit organisations managed directly by Government

(5) In case of 1 (c), if other Credit Organisations managed by private individuals or by joint stock companies are to be approved, (i) what should be the scheme of control and supervision of the organisations by Government, and (ii) what should be the scheme of their management

(6) In the schemes of different organisations recommended in what cases legislation would be necessary and the frame of such legislation

(7) In case of legislation should any provision be made in particular for enforcement of mortgage security by any summary procedure for foreclosure and sale

(Schemes of Land Mortgage Banks Co-operative Type).

Note on the Punjab Bill on relief of indebtedness as modified by Select Committee.

The Punjab Bill on relief of indebtedness as modified by the Select Committee is divided into 8 parts, viz —

(1) Preliminary

(2) Insolvency Procedure

(3) Usurious Loans

(4) Debt Conciliation Board

(5) Damdupat

(6) Deposit in Courts

(7) Amendment of the Punjab Redemption Mortgages Act

(8) Miscellaneous amendments of the civil law

This note summarises the main points on which the Punjab Bill differs from the Bill for the relief of indebtedness drafted for the Board of Economic Enquiry, which is referred to here as "Bengal Bill" for the purpose of brevity

2 The definition of "Loan" in part I of the Punjab Bill does not differ much from that in the Bengal Bill as they now stand

3 Part II of the Punjab Bill amend the Provincial Insolvency Act (*a*) by adding a clause in section 10(*1*), which has the effect of reducing the minimum assets of an insolvent to Rs 250 from Rs 500 and (*b*) by substituting in section 74 "Rs 15,000" for "Rs 5,000" and thus raising the jurisdiction for summary administration of a debtor's property

It may be noted that there is no minimum proposed in the Bengal Bill which provides in clause 14B for the reduction of an insolvent's debt to his paying capacity by an order of adjustment and for the fixing of instalments for payment accordingly if there is default in an instalment it provides (in clause 15) for the sale of the insolvent's property excluding his homestead for the rateable distribution of sale proceeds and for granting of a discharge certificate

4 In part III of the Punjab Bill several amendments of the Usurious Loans Act are contemplated The main amendment is to the effect that all compound interest shall be deemed to be excessive except on loans from and deposits with Government, local bodies, joint stock companies and co operative societies and in mortgages by any person other than an agriculturist

The provisions are to have retrospective effect There is nothing similar in the Bengal Bill as the Bengal Money Lenders' Act covers them

5 It is in part IV of the Punjab Bill that the comparison with the Bengal Bill is most interesting

The definition of "Debt" in the clause 7(*1*) of the Punjab Bill excludes—

(*a*) "Land Revenue" just as "rent" was excluded in the original draft of Bengal Bill (The Board is now of opinion that "rent" should not be excluded but should be the subject of conciliation just like other debts),

(*b*) Debts barred by limitation This is not of much importance as a time-barred debt is *ipso facto* legally ineffective,

(*c*) Debts due to co-operative banks and societies, and

(*d*) to commercial banks

There is much controversy as regards exclusion of debts to co-operative societies The Bengal Bill does not exclude such debts but provides that proceedings which affect them are to be initiated subject to the approval of the Registrar of Co-operative Societies (clause 16) The minority of the Punjab Select Committee notes that the wisdom of excluding co-operative banks is open to question particularly as the Directors of these banks are of the borrowing class and they hold that these banks require no special protection particularly if as is represented, their dealings are such as to show the utmost consideration for the borrowers

The Punjab Bill defines "Agriculture" in clause 7(*3*) as in the English Small Holdings' Act, 1892, 55 and 56 V C 31 The Bengal Bill [clause 2(*1*)] would give it the same meaning as in the Bengal Tenancy Act, where, although it is not defined it has been interpreted by judicial decisions to include horticulture etc, "Creditor" and "supplementary income" are defined in the Bengal Bill but not in the Punjab Bill

The Punjab Bill clause 8(*3*) provides for fixing the pecuniary limit of a Board's jurisdiction The Bengal Bill does not fix any limit

The Punjab Bill (clause 12) does not include a proviso empowering the Board to dismiss an application such as appears in the Bengal Bill (clause 11A)

Consequently the Punjab Bill clause 13(*1*) makes it obligatory on the Board to issue notices on creditors which the Bengal Bill clause 8(*1*) provides for issue of notices only if it is thought necessary after examination of the applicant

The Punjab Bill lays down that if a creditor does not submit a statement of debt after receiving notice, the debt shall be deemed duly discharged [clause 13(*2*)], but the Bengal Bill [clause 8(*2*)] provides only that, in such a case the debt shall be deemed to be the amount stated by the debtor in his application subject to reduction under debt conciliation

The Bengal Bill [clause 12(*1*)] provides for making an award when 60 per cent of the debtor's debt is amicably settled between him and his creditors, whereas the Punjab Bill [clause 17(*1*)] provides for an authenticating agreement if "all or any of the creditors" agree (The minority of the Select Committee opposes this on the ground that it is fatal to the whole idea of conciliation It would be open under the modified provision for a single creditor to effect the rights of other creditors)

The Punjab Bill clause 17(3) omits provision of registration of an agreement or award such as appears in the Bengal Bill [clause 12(*2*)], as the Select Committee decided unanimously that the procedure for registration was complex and unnecessary

Clause 19 of the Punjab Bill deals with the procedure when a creditor refuses a reasonable offer by a debtor this corresponds to clause 14 of the Bengal Bill but differs fundamentally from it Both Bills provide for the issue of a certificate or award by the Board in respect of the debts covered by the offer but in the Punjab Bill the result is merely that a civil court will allow no costs in a suit for these debts and will not allow interest at more than 6 per cent from the date of the certificate, while the award proposed by the Bengal Bill would have the effect of a decree and would actually reduce the debt though not to a figure below the original principal

6 There is nothing in the Punjab Bill corresponding to the following clauses of the Bengal Bill —

(a) realisation of an amount settled amicably or awarded under clause 14 under the Public Demands Recovery Act, in case of failure to pay instalments as fixed in the award,

(b) clause 17A(ii) barring execution of a decree for a loan incurred after an award till the amounts covered by them have been paid,

(c) clause 14A which provides that secured debts should have priority and that the mortgage or lien on the property will subsist till the awarded or certificated debts are paid, and

(d) clause 23 which provides that an award shall be negotiable and may be transferred to an approved credit organisation

7 Part V (Damdupat) of the Punjab Bill is not necessary for Bengal in view of the Bengal Money Lenders' Act

8 There is nothing in the Bengal Bill to correspond with the following items in the Punjab Bill —

(a) Part VI— Deposit in Court

(b) Part VII—Amendment of the Punjab Redemption of Mortgages Act

(c) Part VIII—Miscellaneous amendments of the civil law The important provision is clause 33, prohibiting arrest of a debtor except under certain circumstances, one of which is refusing or neglecting to pay the amount of a decree in spite of having the means of paying it

Clause 34 of the Punjab Bill restricts the prohibition contained in section 60(1) of the Civil Procedure Code against attachment of house or other buildings belonging to and occupied by an agriculturist, by adding the words "not let out on rent or let to others or left vacant for a period of a year or more"

Clause 35 omits rule 2(3) in Order XXI of the Civil Procedure Code, which is to the effect that no payment out of court will be recognised if not certified by a court

Clause 36 amends section 48 of Civil Procedure Code by making the period of limitation for recovery under a decree six years instead of twelve

First Forecast of the Wheat Crop of Bengal, 1934-35.

(*Note*—On an average of the five years ending 1932 33, the area under wheat in Bengal has represented some 0 4 per cent of the total area under wheat in India The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1932-33, averaged (*a*) 41 4 and (*b*) 10 8 per cent , respectively)

Explanatory—Four forecasts of wheat crop are published The present forecast deals only with the estimated area sown and the general condition of the crop in the early stages

Acreage—According to the estimates of the District Officers, the total area sown amounts to 151,600 acres this year as against 145,400 and 145,500 acres, respectively, in the corresponding and final forecasts of last year

Character of the season—Rainfall in October and November was sufficient for the preparatory tillage and for the sowings of the crop which generally took place at the usual time Subsequent weather was helpful for germination and growth The present outlook is promising, on the whole

RESOLUTION—No 754M

Calcutta, the 28th January 1935

Minister-in-charge The Hon ble Sir Bijoy Prasad Singh Roy, Kt

The mal-administration of the South Suburban Municipality (in the district of the 24-Parganas), particularly in respect of the Collection Department, has been under the notice of Government for some time past In the year 1933-34 a case of embezzlement by a tax collector during the previous year was brought to light On detailed scrutiny by the auditors the amount embezzled was found to be Rs 9,789 The defalcation appears to have gone on during 1932-33, and up to the middle of January 1934, and it appears that this was rendered possible by inadequate supervision and by non-observance of the Municipal Account Rules regarding collection on the part of those in charge of the Collection Department Contrary to the usual practice prevailing in other municipalities in the province, the Collection Department of the municipality was not placed in charge of the Vice-Chairman, nor were any powers delegated to the Vice-Chairman, under section 52 of the Bengal Municipal Act, although the Municipal Account Rules require that some powers should be exercised by the Vice-Chairman for the proper supervision of the Collection Department In fact the Chairman of the South Suburban Municipality chose to keep all powers to himself, with the result that important checks and verifications provided by the rules were neglected and this greatly facilitated the defalcation referred to above

2 The Audit Report for the year 1933-34 estimates the unrealised taxes at Rs 61,845 The statement below* shows the percentage of current collections in the municipality during the last six years It will be observed that the rate of collection has been falling below the standard of 95 per cent , fixed by Government, since the year 1931-32, when the present body of Municipal Commissioners came to office No effective measures appear to have been taken to collect arrears of taxes It is reported that as many as 637 warrants, issued during the years 1932-33 and 1933-34, were not executed at all and there was no order of the municipal executive either for the cancellation of these warrants or for further action regarding them The Audit Report also mentions that out of 381 warrants issued during the year 1933-34 only 146 were executed, and no orders for remission could be pointed out in cases where the warrant fees were not realised The Audit Report further reveals that very little control is exercised by the municipal executive over the proper maintenance of the stock account of the receipt books issued to the tax collectors—

*1928 29	97 3	per cent
1929-30	97 2	,,
1930 31	95 4	,,
1931 32	80 2	,,
1932 33	77 5	,,
1933 34	77 5	,,

As a result of the poor collection of taxes, the financial condition of the municipality has become precarious The actual cash position of the municipal fund at the end of the year 1933-34 was one of deficit to the extent of Rs 17,887 as shown below —

	Rs
Cash book balance	16,189
Unpaid bills	23,064
Refundable deposits and balances of subsidiary funds and unspent contributions	11,012
Real cash book balance	17,887

The amount of unpaid bills rose from Rs 8,161 to Rs 23,064 during the three years ending 1933-34 In August 1934 the Subdivisional Officer of Alipore made a personal enquiry into the affairs of the municipality and his report revealed various irregularities and abuses of power in the administration of the municipality, particularly in respect of the Collection Department

3 In view of the above state of affairs, Government called upon the Municipal Commissioners under section 550, sub-section (*1*) of the Bengal Municipal Act to show cause why steps should not be taken to appoint a suitable person to take charge of the Collection Department of the municipality In reply, the Municipal Commissioners have stated that they have no objection to the action proposed to be taken by Government, and that they have no views to offer to the contrary

The Government of Bengal (Ministry of Local Self-Government) have come to the conclusion that the Commissioners of the South Suburban Municipality have, in respect of the Collection Department of the municipality, abused their powers and persistently made default in the performance of duties imposed on them by the Municipal Act In exercise of the power conferred by section 550, sub-section (2) of the Bengal Municipal Act, 1932, they accordingly direct that the Sadar Subdivisional Officer, 24-Parganas, will take charge of the above department for a period of one year with effect from the date of publication of this resolution in the *Calcutta Gazette*

4 Ordered that this resolution be published in the *Calcutta Gazette*

By order of the Govt of Bengal

Add the following after Rule 46, Order XXI —

46 (A).—The Court may in case of a debt, other than a debt secured by a mortgage or a charge or by a negotiable instrument, which has been attached under rule 46 or 51 of this order, upon the application of the attaching creditor, issue notice to the garnishee liable to pay such debt calling upon him either to pay into Court the debt due from him to the judgment-debtor or so much thereof as may be sufficient to satisfy the decree and costs of execution, or to appear and show cause why he should not do so

Provided that if the debt in respect of which the application aforesaid is made is in respect of a sum of money beyond the pecuniary jurisdiction of the Court, the Court shall send the execution case to the Court of the District Judge to which the said Court is subordinate, and thereupon the Court of the District Judge or any other competent Court to which it may be transferred by the District Judge will deal with it in the same manner as if the case had been originally instituted in that Court

1 In order to supplement the revenues of Bengal, whose budgets since 1930-31 have shown large deficits, the Central Legislature voted in March last a grant to this province equal to half the net proceeds of the export duty on jute grown within her boundaries The grant voted last year was for the year 1934-35, and its renewal for the ensuing year remains within the discretion of the Central Government and Legislature

2 In connection with this grant the Hon'ble the Finance Member of the Government of India in his budget speech and in his speech during the general debate on the budget in the Legislative Assembly made the following statements —

"While our financial position has been maintained in the sound manner which I have described, we have to recognise that the financial position in India is not merely a question of the Central Government budget, but that provincial finances also closely concern us Not only does the Central Government at present act as the banker to the provinces, holding their balances and providing funds to meet their capital expenditure and deficits, but we have also in these days to consider our policy with some regard to the various proposals for Federal finance which are such an important part in the constitutional plan I am not suggesting that we can in any way anticipate the new constitutional proposals, the form of which is still subject to consideration by the British Parliament, nor that we can attempt to take upon our shoulders the responsibility for dealing with the problems of Provincial Governments There is, however, one case which has stood out in all the enquiries and proposals as requiring some special action, and that is the case of Bengal The need for some special help has been recognised in the White Paper, and the Government of India is also prepared to accept a similar conclusion At the same time if any action is to be taken, it is right that something should be done without delay, because Bengal has been since 1930 incurring deficits at the rate of about two crores per annum and its debt on this account is piling up to figures which may become really unmanageable If we are prepared to take account of this and ask the Central Legislature to support us in raising funds to help Bengal we can only fairly claim to be satisfied that the Bengal Government and Legislature are doing all that is possible to help themselves Everything which I have to propose is subject to this condition "

* * * * *

"I must add a few words as to the significance in relation to Bengal of the proposal to render it possible to surrender part of the jute duty I have already stated that it is necessary to stipulate, and indeed we feel sure that we shall be supported in this view by the Legislature and particularly by those who represent other provinces, that if the special assistance, out of what are under the present constitution Central funds, is to be given, it is fair that we should satisfy ourselves that the Government of Bengal is taking every possible measure on its own account to restore financial equilibrium On the other hand the present proposal is, as I have already stated on several occasions, only intended as a provisional proposal It is not intended to be a permanent commitment, nor do we intend to take the line that it is to be regarded as a full and final settlement of the Bengal Government's financial position Further enquiries will have to be made before any such settlement could be reached, nor can it be reached until the constitutional plan is determined by the British Parliament There are several difficult points involved, amongst which I must mention the treatment of the debt which has already accrued against Bengal as a result of budget deficits which have been incurred since 1930 "

* * * *

"But the position is this, and I want the House to be very clear about this because this is the issue which is before the House We, as the Government of India, having given a very careful consideration to the position, had come to the conclusion that the position of the Bengal Government was such that it could not be expected, by its own efforts, to be able to restore financial equilibrium That is the whole basis of our proposals and we feel that, in their position, the Bengal Government is in a special position, and that there is no province in India to-day which is in a comparable position Now, that being our conclusion, the position was this The Bengal Government was incurring deficits at the rate of almost 2 crores a year They were piling up a debt which, as I said in my budget speech, would soon have reached unmanageable figures Our position as the banker of that Government must have been this We ought to have said to them either 'We cannot go on advancing you money to meet your deficits, you must put your house in order,' or 'we must recognise the fact that you yourselves are unable to put your house in order, and, therefore, we must try and devise some means to help you ' We felt that in any case the position, as it was, could not be allowed to continue and as we had been convinced that they were unable to restore their own position in present conditions, we felt that the time had come when we must put forward some proposal which would enable us to bring it within the bounds of possibility that they could help themselves to fill up the remainder of the gap "

3 The condition laid down by the Hon'ble the Finance Member was endorsed by the Central Legislature, and the grant of an amount equivalent to one-half of the jute export duty was voted (for the year 1934-35) on the understanding that it would not be paid unless the Government of India were satisfied that the Bengal Government and the

Bengal Legislature were doing all that was possible to help themselves The position at that time was as follows —

	Rs
Deficit on revenue account in the Bengal Estimates for the year 1934 35	2,09,22,000
Estimated amount of half the net proceeds of the jute Export duty	1,67,00,000
Reduced deficit	42,22,000

Final figures for the Budget Estimates for the year 1935-36 are not yet available, but the preliminary figures disclose no improvement in the revenue position, and the problem of balancing the budget in the year 1935-36 is very much the same as it was in the year 1934-35

4 When a Government's expenditure exceeds its revenue, in order to effect adjustment, it must either retrench its expenditure or increase its taxation, or do both Assisted by a Retrenchment Committee which they appointed in 1932, the Bengal Government have exhaustively considered the possibilities of retrenchment and measures for the reduction of expenditure have been adopted wherever retrenchment was considered feasible without seriously affecting the efficiency of the administration The effect of those measures was analysed in the speech given by the Hon'ble the Finance Member when introducing the budget estimates for 1934-35 in the Legislative Council His analysis showed that on a true comparison of the expenditure on revenue account in 1929 30 with that in 1933-34 the aggregate reduction in expenditure effected was no less than Rs 94¾ lakhs Since then, rules have issued revising the scales of pay for the large majority of the services and posts under the rule-making power of the local Government, and their effect will be a saving eventually of approximately Rs 45 lakhs per annum

5 Apart from (a) an enhancement in registration fees, and (b) the introduction of a provincial tax on motor vehicles the proceeds of which, being earmarked for additional expenditure on communications, do not however relieve the revenue position, no additional taxation has been imposed in Bengal since the year 1922 The position as regards taxation has accordingly been examined, both generally and with particular reference to measures taken in other provinces, and the local Government have decided to introduce certain taxation Bills at the ensuing session of the Legislative Council The additional revenues expected from these Bills will not completely fill the gap between revenue and expenditure that will remain after receipt of one-half of the jute export duty, but they will considerably reduce it

This decision does not mean that the Government of Bengal have abandoned either their claim that the jute export duty should be a provincial source of revenue or their claim for an adjustment to cover the excess of expenditure over receipts on revenue account that has accumulated since 1930-31 On the contrary, they will continue to press those claims, and they are satisfied that the case which they intend to put forward will certainly not be weakened by the adoption of the measures now proposed

6 The taxation measures which it has been decided to place before the legislature have been published in the Gazette They are—

	Estimated yield in a full year
	Rs
(a) The Bengal Electricity Duty Bill, 1935	10 lakhs
(b) The Bengal Tobacco (Sales Licensing) Bill, 1935	5 „
(c) The Court Fees (Bengal Amendment) Bill, 1935	3½ „
(d) The Indian Stamp (Bengal Amendment) Bill, 1935	4 „
(e) The Bengal Amusements Tax (Amendment) Bill 1935	2 „
Total	24½ „

7 *The Bengal Electricity Duty Bill, 1935* Legislation on the lines of this Bill has been in force in the Presidency of Bombay since 1932 The Bill provides, subject to certain exemptions, for the levy of a surcharge on electricity used for the purpose of lights and fans The surcharge proposed is 6 pies per unit of energy This is the surcharge in force in the Presidency of Bombay The exemptions include Government, Railway Administrations and Local authorities, save in respect of premises used for residential purposes, Tramway Companies and all places or premises wherein any manufacturing process [as defined in clause (g) of section 2 of the Indian Factories Act, 1934] is carried on, save in respect of premises used for residential and office purposes, hospitals and dispensaries which are not maintained for private gain, and all consumers using not more than 12 units in any one month

8 *The Bengal Tobacco (Sales Licensing) Bill, 1935* —This Bill requires licences to be taken out for the sale of tobacco, but expressly provides that cultivators of tobacco may sell the produce of their own cultivation without taking out a licence The Bill places no restrictions whatsoever on the sale by the cultivator of tobacco grown by himself or with the aid of the members of his family or by hired labour

The fees which it is proposed to levy are modest

	Rs
(a) Wholesale licences	6 per annum
(b) Retail licences	3 per annum
(c) Hawker's licences	1 per annum

Tobacco is subject to internal taxation in most countries of the world and in several parts of India In the city of Bombay a system of taxation has been in force since the year 1857 Under this system all tobacco imported into the town of Bombay and intended for consumption therein is subject to a town duty of Rs 30 a maund levied at bonded warehouses, and retail sale is permitted under licence on payment of a nominal fee of Re 1 per annum In French India the privilege of vend of tobacco is sold by auction, and the site of each

shop is defined in the licence In Portuguese India a licence fee is charged for wholesale and retail vend In the State of Travancore cultivation of tobacco is prohibited, and a duty is levied on tobacco entering the State In the State of Cochin cultivation is prohibited, and both wholesale and retail shops are sold by auction

In 1933 the Bombay (District) Tobacco Bill was passed into law This law, which applies to the whole of the Presidency of Bombay except the City of Bombay requires licences to be taken out for the sale of tobacco and provides for the levy of licence fees on both wholesale and retail vend A similar measure was passed into law in the Punjab in 1934 The Punjab Act, which also requires licences to be taken out for the sale of tobacco, extends to municipalities, notified areas, small towns, cantonments and railway stations and not to the whole province

9 *The Court-Fees (Bengal Amendment) Bill, 1935* —The Bill provides for a higher court-fee than that now levied on Probates, Letters of Administration and Certificates under the Indian Succession Act, 1925, when the value of the property or the amount of the debt exceeds Rs 2,50,000. The rates in the Bill have been in force in the Presidency of Bombay since 1932

10 *The Indian Stamp (Bengal Amendment) Bill, 1935* —This Bill provides for an increase in the rates of certain stamp duties The rates proposed are, with one exception, in force in one or more of the other provinces

11 *The Bengal Amusements Tax (Amendment) Bill, 1935* —Under the Bengal Amusements Tax Act tickets of admission not exceeding 8 annas are not liable to the Amusements tax The Bill provides for the imposition of a tax on tickets costing more than 3 annas The tax proposed is half an anna on tickets above 3 annas and not exceeding 4 annas and one anna on tickets exceeding 4 annas and not exceeding 12 annas At present tickets exceeding 8 annas and not exceeding 12 annas are liable to a tax of one anna Amusement taxes on tickets exceeding 4 annas are in force in the Presidencies of Madras and Bombay

12 It will be seen that throughout their proposals Government have been at pains to avoid imposing any further charge on the resources of the really poor man

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION

No 728L C—5th February, 1935—The following report of the Select Committee on the Bengal Village Self-Government (Amendment) Bill, 1934, with the Bill as amended by the Committee, is hereby published for general information

Report of the Select Committee on the Bengal Village Self-Government (Amendment) Bill, 1935.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Village Self-Government (Amendment) Bill, 1934, was referred by a motion carried in the Bengal Legislative Council on the 18th December, 1934, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed All matter recommended to be omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter recommended to be inserted has been underlined

2 The Bill was published in English in the *Extraordinary Calcutta Gazette* of the 6th December, 1934

3 We do not consider that the Bill has been so altered by our recommendations as to require republication

4 The Committee met for the first time on the 14th January, 1935, and concluded its sitting on the 17th January, 1935

5 The more important changes made in the Bill are as follow —

Clause 3, sub-clause (4).—We think it desirable to widen the franchise in the proposed section 7(*1*) (*iv*) as far as possible and have, therefore, recommended that those persons who have passed the Junior Madrassah or the Middle English or Middle Vernacular Examinations shall be entitled to vote

Sub-clause (5).—We have retained the latter part of the existing Explanation to section 7(*2*) as being necessary

We have also modified the new Explanation proposed by the Bill in order to make it less drastic and more practicable to work

Clause 5.—We have made a necessary addition in proposed section 10A(*b*) to extend the disqualification for membership to persons who have been directed to execute a bond under section 110 of the Criminal Procedure Code, 1898

In the proviso to proposed section 10A(*b*) we have substituted "District Magistrate" for "Commissioner" as we consider the former the proper authority for removing a disqualification under proposed section 10A(*b*)

Clause 6.—We have inserted a proviso in section 11 to provide that the former President shall continue till a new President is elected or appointed as the case may be, as this matter has given rise to difficulty in the past

Clause 7.—We have supplied an obvious omission in section 17(*2*)

Clause 8, proposed section 17B.—We think it desirable that parties should be given the opportunity of being heard and of furnishing evidence in regard to election disputes referred to the District Magistrate and we have also provided a power of revision by the Commissioner of the orders of the District Magistrate

Clause 9.—We have included "cattle disease" in proposed section 23(*1*)-(*viia*) This follows a suggestion of the Veterinary Department which we accept

Clause 10.—The amendment proposed in section 26 (*4c*) is of a purely drafting character

Clause 11.—We have made it clear in proposed section 26A that it is the duty of the union board, as a whole, and not specifically of the President, to report the outbreak of epidemic diseases to the health authorities

We have added "cattle disease" to the proposed section and have also provided that outbreaks of the latter should be reported to the local veterinary authority This is another suggestion of the Veterinary Department which we accept.

In proposed section 26B we have suggested that the approval for the grant of rewards should be that of the Chairman of the district board and not of the "District Magistrate" as the rewards are to be paid from union board funds

Clause 14.—The majority of us think that it would be sufficient if the union boards' help, towards agricultural and technical teaching, is restricted to the grant of stipends to students only

Clause 17.—The emendation made in proposed section 34(*4*) supplies an obvious omission

Clauses 20 and 21.—The emendations made in sections 37, first paragraph, and 38(*1*) are important and are intended to make it clear—

(*1*) that if the owner or occupier is the same person he should not be taxed twice over, and

(*2*) that the assessment under section 38 should be solely in regard to the circumstances and property of the assessee within the union itself and not in regard to his circumstances outside the union

We have omitted proposed section 38(*3*) as unnecessary

Clause 25.—We have proposed an amendment to new section 55A to make the matter more specific

Clauses 27 and 28.—The additions suggested by us are in the nature of safeguards

Clause 30.—We have suggested a re-draft of proposed section 72A so as to provide that an offender may be released after due admonition

We have also made a slight emendation in proposed section 72B as being necessary

Clause 32.—We have, by a majority, recommended the omission of the proposed section 74A as we do not consider that the time is ripe for the grant of these powers even to selected union courts

Clause 33.—We have recommended the omission of the proposed "Explanation" to section 81 and have proposed an emendation in the section itself to make it clear as to the latest time when the applicant should notify the court that he has applied or intends to apply for the transfer of the suit

The other changes are consequential

Clause 34, proposed section 90(1).—The words "an additional fee" are liable to misconstruction We have omitted them to make the intention more clear

The other changes are of a consequential character owing to the deletion of proposed section 74A

Clause 36.—We have extended the disability contained in this clause, which was restricted to cases in which a member of the union board is interested, to cases in which the union board itself is interested

Clause 37.—We have recommended certain important amendments in proposed section 100D by which—

(*1*) the order of removal by the Commissioner of a member of a union board or a union court shall be subject to the approval of the Local Government,

(*2*) the member against whom such an order is pending shall be given an opportunity of being heard in his defence

The language generally follows that of section 62(*3*) of the Bengal Municipal Act, 1932

New clause 39.—We have suggested an emendation in Schedule IV of the Act to provide that union benches shall not have jurisdiction over offences provided by the Act as we consider this desirable

We recommend that the Bill, as reported on by us, be passed

The official members or the Committee desire to make it clear that as the changes made in clauses 8, 28, 30, 33 and 36 require the previous sanction of the Governor General, they are unable to accept responsibility for them in the absence of such sanction

NOTE—The signature of Rai Sahib Sarat Chandra Bal and Khan Bahadur Maulvi Emaduddin Ahmed had not been received up to the time of publishing the Report

Joint minute of dissent by the Hon'ble Sir B. P Singh Roy, Mr G. S. Dutt and Rai Bahadur G C. Sen

Clause 32 —We consider that the Select Committee should not have omitted this clause, as the provisions in proposed section 74A relating to exclusive jurisdiction of union courts for the trial of specified classes of suits confer a privilege on the people and are intended to bring simple justice to the door of the villagers, and save them from expensive litigation The provisions of the section are permissive in character and they do not apply automatically to all courts Adequate safeguards have been provided It is proposed therefore to move an amendment for reinsertion of the clause during the consideration of the Bill

Minute of dissent by Mr N K Basu, M L.C

Clause 6(2).– I think section 11 needs further amendment What will happen if the old President is not a member of the new Board ?

In my opinion, the old Board, and not the President alone, should function till a new President came in

Clause 8 —I cannot agree to the opening words of proposed section 17A " No election of a member of a union board shall be called in question in any court, and "

I have never been able to reconcile myself to the ousting of Judicial authority

Clause 25 -- The same remark as noted under clause 6(2) applies to the proviso here

Clause 28 —I very strongly object to this clause The time is not yet ripe for this sort of legislation It will lead to corruption, injustice and denial of justice

The reasons for omitting clause 32 apply with much greater force here

Clause 33 The words should be " any evidence *is* taken in " and " not any evidence taken in "

Minute of dissent by Babu Satish Chandra Ray Chowdhury, M.L.C.

I sign the Report subject to the following minute of dissent —

Clause 8 (proposed section 17B) —I think the jurisdiction of the civil courts should not be ousted especially on questions of law but to cut down frivolous disputes some sort of penal clause may be added

Clause 28 —The reasons which led the Select Committee to omit clause 32 of the Bill should have also led them to omit clause 28 which proposes to give selected union benches exclusive jurisdiction In fact, the reasons apply with even greater force to the latter, because civil claims are generally backed by documents of some kind or other and the loss involved in case of failure of justice is of money only , but in criminal trials, a failure of justice- involved in wrong convictions—has very far reaching consequences The man convicted looses his character in the eyes of the public and looses his self respect too and whenever he has to turn up thereafter in courts he is at a tremendous disadvantage The chances of wrongful convictions and wrongful acquittals are also very great as most of our villages are torn by factions and parties given rise to often by ludicrously slight causes which it is difficult to establish legally before a Magistrate, the safeguards added therefore being quite illusory Then some of the sections relating to which exclusive jurisdiction is proposed to be given involves very delicate questions of law, *e g*, what amounts to grave and sudden provocation It is difficult to expect right decision in many cases especially when lawyers are excluded The healthy checks on vagaries of Courts and Magistrates provided by our Codes, such as full recording of evidence, testing of the same by cross examination by lawyers, appeals on facts and law, are all absent in the case of union courts and benches Many therefore not unreasonably think that this drastic clause will result in installing undiluted autocracy and establishing Star Chambers in many of our villages making it difficult for decent people to lead a decent life therein It may be that in some cases union courts and benches have acquitted themselves well , but if confidential information is gathered from district and subdivisional officials such cases will be found to be few and far between, whereas instances of gross failures will be found to be too pathetic and too many Past experience in similar matters shows that selection of union benches for investing them with exclusive jurisdiction cannot always be wise and unerring for obvious reasons It is contended that such increased powers will bring more revenue to the union boards The simple answer is that no such mercenary considerations should be allowed to affect or jeopardise the purity of the administration of justice I might go even further and say that these self governing institutions should have no direct connection with the administration of justice Our municipalities and district boards have no less public utility because they do not exercise judicial functions Lastly, all parts of the country are not equally advanced in education and outlook We should therefore be content to wait instead of rushing into an unchartered sea

Minute of dissent by Haji Badi Ahmed Chowdhury, M L. C

Bill clause 32 —I do not agree to the omission of this clause

Minute of dissent by Rai Bahadur Satish Chandra Mukherji, M L C

I enjoin the following minute of dissent, namely —

Clause 3 (4) —In my opinion with the drastic change in proposed section 7(*1*) (*iv*) the retention of the proviso limiting membership of a joint undivided family to one person is illogical and the proviso should be omitted

Clauses 12 and 13 —In sub section (*3*) of section 27 and in sub section (*4*) of section 28 I want to add the following words, namely —

Or within such further time as may be allowed by the appellate authority "

Clause 20(1) —In section 37 I want to add the word "permanent" between the words owners" and occupiers '

Clause 21 — In section 38 I want to keep the following words, namely —

circumstances and the property held within the union " This will remove the controversy whether money earned outside but spent inside the union is taxable In my opinion the proposed amendment by the Select Committee does not dispose of this controversy

Clause 28 —I want to omit proposed section 66A like proposed section 74A There is no sufficient reason to discriminate between the two sections Secondly, I am not in favour of the addition of the last few lines to the proviso of the proposed section as it unnecessarily restricts the exercise of the discretion of the officers mentioned therein

Minute of dissent by Rai Bahadur Keshab Chandra Banerji, M L C

Clause 3, sub-clauses (1), (2) and (3) —The electorate is proposed to be widened in two ways, *viz* , (*i*) by lowering the minimum franchise qualifications, and (*ii*) by including educational qualifications I am entirely at one with the Committee so far as the latter is concerned But I regret to have to differ from the majority in regard to the provisions for the lowering of the franchise qualifications to eight annas as cess and six annas as union rate as originally proposed in the Bill The franchise is a sacred trust and it must be exercised with due caution and with a full sense of responsibility The arguments against adult franchise in India apply here too If the voters have no education, they cannot be expected to record their votes with due care and consideration I am, therefore, of opinion that the time is not yet ripe when anybody who pays union rate should have the right to vote at a union board election I think we should wait until the Bengal (Rural) Primary Education Act, 1930 has been in operation for some years in Bengal and the masses have been sufficiently educated so that they may appreciate the value of franchise, the sacred trust reposed in them

Clauses 28 and 32 —The proposal in the original Bill to confer ' exclusive jurisdiction ' upon certain selected union benches and courts in regard to any or all classes of suits or cases triable by them does not appear to be at all desirable

I entirely agree with the majority that the time has not come for the grant of such powers even to selected union courts

For the same reasons, I do not agree that the same privilege should be extended to selected union benches also The arguments against the grant of such power to union courts apply with equal force if not greater, to union benches as well The safeguards suggested by the Select Committee are not adequate I am in favour of entirely omitting proposed sections 66A, 72A and 72B along with proposed section 74A

The union benches have been enjoying concurrent jurisdiction for some time Has the experiment been perfectly satisfactory ? Has there been no miscarriage of justice ? Have not the District Magistrates in some cases found it necessary to withdraw the concession from a large number of union benches and courts ? The fact that Government have found it necessary to confer upon the Divisional Commissioners power to remove members of benches and courts has a tale to tell I am very strongly of opinion that considering their past record, the union benches, not even a selected few, should be given the privilege of "exclusive jurisdiction for offences triable by them There are other cogent reasons for which I consider it inadvisable at present to invest the union benches with the power contemplated in the proposed sections referred to above

I sign the report subject to the above minute of dissent

Minute of dissent by Babu Khetter Mohan Ray, M L C

Clause 14 —In proposed section 31A, clause (*a*) should not be omitted The union board should have power to make such grants as mentioned in clause (*a*) for the propagation of agricultural education amongst the rural population The principle is accepted by the Select Committee when they have approved clause (*b*)

Clause 28 — This clause should be omitted To empower the union bench with exclusive jurisdiction to try certain offences is a dangerous experiment in the present state of development of the union boards in general The criminal courts should not be ousted of its ordinary jurisdiction over this class of offences

There are other points on which I do not agree with the majority, which I shall try to get rectified by way of amendments at the time of the second reading of the Bill in the Council

The reports of the previous three years Mr C C Calder held charge of the office of Superintendent throughout the year

2 Of the accumulated stock of crude quinine sulphate which Government are endeavouring to reduce, only a sample of 115 lbs was sold to Messrs Smith Stanistreet and Company during the year under report The balance of the stock of this drug on 31st March 1934 stood at 126,962 29 lbs Of the accumulated stock of bark 230,400 lbs were sold to the Government of Madras and 800 lbs to others during the year, and the closing balance on 31st March 1934 was 1,291,485 lbs By these sales a reduction of the surplus stock of bark by over two lakhs of pounds was effected The total quantity of cinchona products manufactured during the year was 65,614 lbs and the total quantity sold was 61,800 lbs Sales of manufactured products were, therefore, less than production by 3,814 lbs Steps are now being taken to restrict the bark harvests to prevent the further accumulation of stocks

3 The total area under cinchona at the end of the year was 2 686 acres Extensions amounting to 132 5 acres were carried out during the year under review in the Munsong Plantation only

4 The Mungpoo Plantation is relatively free of disease and it continues to be in a thriving condition thus making good the losses caused by disease in Munsong In the latter plantation disease seems to have caused serious damage, and attempts to eradicate it have not yet met with success The work of investigation into the disease has been in progress at Pusa, Toklai, Delhi and Edinburgh and during the year, Munsong was visited by Miss Burt of the Lady Hardinge Medical College, Delhi, with a view to obtaining further specimens to work on In Munsong all the bark harvested came from dead and dying trees with the exception of a small area of 4 acres coppiced in the Sangseer division A fire broke out during the year at the bottom of this plantation alongside the Sikkim-Bengal boundary, but it was prevented from spreading to areas containing cinchona The cause of the fire is unknown

5 The quantity of Bengal bark harvested in the year of report was 1,131,960 lbs against 1,445,762 lbs in the previous year

6 Altogether 1,436,796 lbs of dried bark were treated in the factory during the year—the largest quantity on record Of this 1,268,365 5 lbs were Bengal bark and the rest belonged to the Government of India

7 In recent years all the quinine has been extracted in the crude or semi-purified form and thus stocked The total quantity of quinine sulphate manufactured during the year was 51,094 lbs, of which 5,366 lbs belonged to the Government of India The cost of manufacture from the bark amounted to Rs 2 721 per lb The total quantity of cinchona febrifuge manufactured during the year was 28,523 lbs, of which 3,394 lbs represents the share of the Government of India The manufacturing cost of the febrifuge was Rs 1 820 per lb As in

previous years the demand for cinchona febrifuge exceeded the supply The deficiency was met in part by taking 5,054 lbs from Government of India stocks, but these are now running low, and will no longer be available for the Bengal area of distribution

8 The gross receipts were Rs 9,73,244-5, and after deducting Rs 45,486 due to the Government of India on account of the sale of that Government's febrifuge powder, Rs 47,412-12 due to the Jail Department for distribution work, and Rs 5,293 on account of sales outstanding, the net receipts amounted to Rs 8,75,052-9 The total expenditure of the department including pensionary charges was Rs 4,33,168-13 The receipts and expenditure were higher by Rs 2,37,773-9 and Rs 37,796-11, respectively, than in the previous year The profit on the year's working according to the profit valuation account amounted to Rs 4,01,722-4, as compared with Rs 4,38,238-3 in 1932-33, which would seem to indicate that the financial result of the year's working was not so satisfactory as in the previous year Actually, however, the reverse is the case In 1932-33 sales increased by approximately 2½ lakhs of rupees and net receipts (excess of actual money receipts over actual money expenditure) by about Rs 2 lakhs The accumulation of stocks has also been checked Whereas in 1932-33 the value of the stocks held rose by approximately 3½ lakhs of rupees, the corresponding rise in 1933-34 was only about Rs 8,000—a very satisfactory result, which however, was due to special causes, notably the heavy sale of bark to the Government of Madras, and the larger amount purchased by Government itself for free distribution

9 Government are satisfied from the report that the Bengal Cinchona Department has been efficiently managed during the year under review The thanks of Government are due to Mr Calder, the Superintendent of Cinchona Cultivation to Mr S C Sen, the Quinologist, and to the other officers of the department for the good work done by them

Order—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India

RESOLUTION—No 831M

Resolution under section 7 (2) of the Garden Reach Municipality Act, 1932.

Minister-in-charge The Hon'ble Sir Bijoy Prasad Singh Roy, Kt

Read—

The Report of the Garden Reach Committee

In order to provide for the exclusion of the "Garden Reach area" from the limits of the Corporation of Calcutta and to constitute the area as a municipality under the Bengal Municipal Act, 1884 (re-enacted by Bengal Act XV of 1932), the Garden Reach Municipality Act, 1932 (Ben Act III of 1932) was passed by the Bengal Legislative Council in February 1932, and was published in the *Calcutta Gazette* of the 7th April 1932, for general information Under section 3 of this Act, a Committee was appointed by Government to report on all matters incidental to the exclusion of the area from the limits of the Corporation and its constitution as a municipality under the Bengal Municipal Act The Committee submitted its report on the 28th April 1933 and it was published at pages 738-793 of the supplement to the *Calcutta Gazette* of the 29th June 1933 In pursuance of section 7 (2) of the Garden Reach Municipality Act, Government invited the views of the Corporation on such of the recommendations of the Committee as mainly concerned them The opinion of the Corporation was not received by Government till February 1934 An informal conference was held on the 23rd August 1934, with the representatives of the Corporation and of the Garden Reach area, to discuss some of the recommendations of the Committee It was at first proposed to start the new Garden Reach Municipality from the 1st October 1934, but in view of certain practical difficulties in constituting the new municipality in the middle of a financial year, Government decided that the municipality should begin to function with effect from the 1st April 1935

2 The Committee's recommendations have been carefully considered by Government along with the views expressed by the Corporation, and the Government of Bengal (Ministry of Local Self-Government) are pleased to pass the following orders, under section 7 (2) of the Garden Reach Municipality Act on the various points raised in the Committee's report —

(1) **Boundaries.**—The Committee has noticed certain minor discrepancies between the definition of the "Garden Reach area" in section 2 (1) of the Act and the Schedule to the Act which amends the boundaries

of the Calcutta Municipality as defined in Schedule I of the Calcutta Municipal Act, 1923 It has accordingly proposed certain alterations of the eastern boundary of the Garden Reach Municipality so as to include certain areas in, and exclude certain other areas from, the "Garden Reach area" as defined in the Act The Committee has also suggested that the southern boundary of the Garden Reach Municipality should be notified as the northern boundaries of the mouzas Akra, Jaganathnagar, Panchur, Makhalhati and Ramdashhati as determined during the last survey and settlement operations in the district of 24-Parganas and that these alterations might be adopted by Government under section 20 of the Act

Government have taken legal opinion and are advised that section 20 of the Garden Reach Municipality Act can be invoked only if any practical difficulty arises in carrying out the provisions of the Act As there is no difficulty in adopting the eastern boundary of the Garden Reach Municipality as defined in the Act, Government have decided not to accept the Committee's recommendations in regard to this boundary In view, however, of the practical difficulties, mentioned by the Committee, in adopting the statutory southern boundary of the old Garden Reach Municipality, Government are pleased to direct, under section 20 of the Act, that the southern boundary of the municipality shall be as recommended by the Committee

(2) **Division of the municipality into wards and the number of Commissioners.**—The Committee has recommended that the new municipality be divided into five wards for general electorate constituencies and one industrial constituency and that the number of Municipal Commissioners be fixed at twenty, five of whom should be appointed by the Local Government and ten and five should be elected from the general electorate and industrial constituencies respectively If, however, it is found impossible to constitute an industrial constituency under section 18 (1) of the Bengal Municipal Act, 1932, the Committee recommends that the number of appointed Commissioners should be increased to ten, of whom five should represent the industrial concerns and two of the remaining five should represent labour

Government accept the Committee's recommendation that the number of Commissioners should be twenty The first Commissioners of the municipality will be appointed by Government under section 9 of the Act and shall hold office for 2 years As regards the other recommendations of the Committee mentioned above, these will be taken into consideration by Government when passing orders under section 10 of the Act in respect of the division of the municipality into wards, the number of Commissioners to be elected from each ward and other matters

(3) **Adjustment of finances and loans.**—The Committee has divided this subject into two parts, viz —

(*i*) liability of the Garden Reach Municipality for loans and contracts in respect of the Moore-Bateman Water-supply scheme, and

(*ii*) liability of the Calcutta Corporation under section 90 of the Calcutta Municipal Act, 1923

With regard to (*i*) the Committee observes as follows —

"The total expenditure on the Moore-Bateman scheme up to 30th November 1932, came to Rs 2,47,01,303 inclusive of the cost of laying

the Garden Reach main, *i e*, Rs 6,76,283 The Corporation claim that the share which should be apportioned to the Garden Reach Municipality amounts to Rs 20⅜ lakhs (Appendix B) * * * *"

The sum of Rs 20⅜ lakhs is made up of the following items —

	Rs
(*a*) Enlargement of plant and machinery of the Pulta and Talla pumping stations and provision of an enlarged main to carry the increased supply of water from Pulta to Talla	9,82,373
(*b*) Provision of a wider zone main for District No IV so as to enable a larger quantity of water to be carried to this district and thus made available for Garden Reach	3,09,631
(*c*) Provision of a sub zone main for Garden Reach	6,76,283

The Committee is of opinion that the Garden Reach Municipality should not bear any liability for those portions of the Moore-Bateman scheme which are not exclusively for its benefit and can be put to good use by the Calcutta Corporation for the benefit of other areas, and its conclusions are as follows —

Item (*a*) —No portion of the expenditure under this item should be apportioned to the Garden Reach Municipality because—

(*i*) the framers of the Moore-Bateman scheme overestimated the increase in the population of the Garden Reach area which was likely to occur between 1921 and 1941, and underestimated the probable increase in the population of Calcutta, with the result that the increased water-supply made available by the revised scheme will not be used in Garden Reach but will be required in Calcutta proper, and

(*ii*) the overestimate of the population of Garden Reach has saved the Corporation from the necessity of framing a fresh scheme of water supply for wards 21, 22 and 27 (Ballygunge, Bhowanipore and Tollygunge which have been extensively developed by the Calcutta Improvement Trust), and it is therefore unfair to saddle Garden Reach with expenditure which is unnecessary for the needs of Garden Reach but is immediately required for the needs of Calcutta

Item (*b*) —No part of the expenditure under this item also can properly be allocated to Garden Reach as in the opinion of the Committee the population of District No IV in 1941 was similarly underestimated in the Moore-Bateman scheme and the increased water supply made available through the wider mains is for all practical purposes necessary for the increased population in District IV and the Dock area of Garden Reach (without Garden Reach itself)

Regarding *item* (*c*) the Committee observes as follows —

"We consider that the difference between the cost of the 42" main from Sterndale Road to the junction of Garden Reach Road and Circular Garden Reach Road and the cost of the main of 24" dimensions which it is claimed would have been sufficient for the Dock area should be the liability to be assigned to the Garden Reach Municipality According to the evidence of the Waterworks Constructional Engineer of the Calcutta Corporation, the cost of construction of a 24" main to Hide

Road would amount roughly to about Rs 2 lakhs while the actual expenditure on the 42" main will amount to Rs 7,71,000, the difference being Rs 5,71,000

"A separate line of enquiry leads us to approximately the same conclusion The Waterworks Engineer also stated before us that one-third of the total supply of water available at the Garden Reach main will be required for the Dock area and two-thirds will be available for Garden Reach On this basis, two-thirds of the expenditure on the Garden Reach main might be apportioned to Garden Reach and one-third to the Dock area, that is to say, to the Calcutta Corporation Two-thirds of Rs 7,71,000 amount to Rs 5,14,000 "

The Committee, therefore, recommends that Garden Reach should be made liable for a sum of about Rs 5½ lakhs in respect of the Moore-Bateman scheme

As regards (ii), viz, the Corporation's liability under section 90 of the Calcutta Municipal Act 1923, from an examination of the annual accounts of the Corporation, the Committee has come to the conclusion that items of expenditure amounting to Rs 2,75,039-9 3 shown in column 8(a) of Appendix D of their report, may fairly be adjusted against the sum of Rs 6 lakhs which the Corporation is required to spend on "Original improvement works" within Garden Reach under this section

The liability of the Garden Reach Municipality is calculated by the Committee (page 21 of the Committee's Report) in the following manner —

	Rs	a	p
(i) Liability of Garden Reach for loans and contracts in respect of the Moore Bateman scheme	5,50,000	0	0
Add—Expenditure from loan account for tube wells	9,100	0	0
Liability of Garden Reach	5,59,100	0	0
(ii) Liability of the Calcutta Corporation under section 90, Calcutta Municipal Act, 1923	6,00,000	0	0
Less—Amount spent on "original improvement works" (Appendix D to the Committee's Report)	2,75,039	9	3
Liability of Calcutta	3,24,960	6	9

The nett liability of the Garden Reach Municipality, according to the Committee's calculations, comes to Rs 2,34,139-9-3 or Rs 2,34,000 in round figures

After careful consideration of the points raised by the Committee Government have come to the following decisions in this matter —

(i) Liability of the Garden Reach Municipality for loans and contracts in respect of the Moore-Bateman scheme

(a) Enlargement of plant and machinery at Palta and Talla and provision of an enlarged main from Palta to Talla (Rs 9,82,373)— It will be seen from the figures given in Appendix A to this resolution that the increased water-supply made available by the Moore-Bateman scheme would be just sufficient in 1941 to meet the needs of Calcutta proper, Maniktolla, Cossipore Chitpur and the Dock area of Garden

Reach As the distribution system has not been completed in the Garden Reach area, Garden Reach has not so far benefited from the Moore-Bateman scheme to any appreciable extent Government have, therefore, decided that no part of the cost under this head should be borne by the new Garden Reach Municipality

(b) *Provision of a wider zone main for District No IV (Rs 3,09,631)*—Government do not consider that the arguments advanced by the Committee in support of its recommendation that Garden Reach should not bear any liability for the cost under this head are convincing, as the figures of population on which these arguments are based have been found on scrutiny to be not quite correct It appears from the report of the Moore-Bateman scheme and from the figures given in Appendix B of the Committee's report that District No IV zone mains were meant to supply the needs of the estimated population of wards 21 to 25 of Calcutta proper and the municipalities of Garden Reach, South Suburban and Tollygunge in 1941

This estimate was based on the census figures of 1911 and on the figures of population for the years 1921, 1931 and 1941, as calculated on the assumption that there would be an increase of 16 7 per cent in each decade, the increase during the decade from 1911 to 1921 being 16 7 per cent On this assumption the population of wards 21 to 25 in 1941 was estimated to be 285,000 According to the census figures of 1921 and 1931, however, the actual population of these wards, as shown below, increased from 196,315 in 1921 to 242,218 in 1931, showing an increase of 23 3 per cent —

Name of ward	Population 1921	Population 1931
Ballygunge 21	50,854*	30,999
Bhowanipore 22	57,378	79,684
Alipore 23	22,184	30,020
Ekbalpur 24	31,420	32,822
Watganj 25 (including Hastings)	34,479	32,463
Tollygunge 27		40,730
	196,315	246,718
Deduct—For Hastings		4,500
		242,218

*Including Tollygunge ward

If this rate of increase is maintained during the next decade, there is likely to be an increase of nearly 56,000 over the population of 1931, that is to say, the population of these wards would be 298,000 in place of 285,000 as taken in the Moore-Bateman scheme It would not, therefore, be quite correct to hold that the population of the area to be served by the District No IV zone mains in 1941 was materially under-estimated in the Moore-Bateman scheme and Government do not accept the Committee's recommendation that no portion of the cost of these mains should be debited to Garden Reach As, however, about one-third of the total supply of water made available for Garden Reach by the District IV mains will be required for the Dock area, which will remain within Calcutta, Government have come to the conclusion that the Garden Reach Municipality should not be made liable for more than two-thirds of the amount of Rs 3,09,631, or, in other words, the municipality should pay to the Calcutta Corporation a sum of *Rs 2,06,000* in round figures under this head

(c) *Provision of the sub-zone main for Garden Reach*—For the reasons given by the Committee in regard to this item, Government have come to the conclusion that not more than *Rs 5 71 lakhs* is debitable to the Garden Reach Municipality under this head

(d) *Supervision charges and Moore-Bateman's fees*—A sum of Rs 95,467 has been apportioned under these heads by the Corporation to the Garden Reach Municipality (*vide* items 8 and 9 of Appendix B to the Committee's report) Government have decided that a proportionate share of the cost under these heads should be debited to the Garden Reach Municipality and that this should bear the same proportion to Rs 95,467 as the total liability of Garden Reach for the Moore Bateman scheme, as now fixed by Government, viz , Rs 7 77 lakhs, bears to the sum of Rs 19,70,916, which was claimed by the Calcutta Corporation On this principle, the amount of the liability of Garden Reach under this head comes to Rs 37,636 or *Rs 38,000* in round figures

(ii) *Liability of the Corporation under section 90 of the Calcutta Municipal Act, 1923*

From a statement furnished by the Corporation it appears that the Committee has left out certain items of expenditure amounting to Rs 4,918-13-2 which, the Corporation considers, ought to be taken into account as expenditure on works of a permanent nature Government accept this view of the Corporation The total expenditure by the Corporation on "Original improvement works" in Garden Reach would thus come to Rs 2,79,958-6-5 The nett liability of the Corporation under this head is therefore —

Rs	a	p
6,00,000	0	0
2,79,958	6	5
3,20,041	9	7

The resultant position may be stated in balance sheet form as follows —

(i) Liability of Garden Reach for loans and contracts in respect of the Moore Bateman scheme—

	Rs	a	p
Provision of wider zone main in District No IV	2,06,000	0	0
Garden Reach zone main	5,71,000	0	0
Supervision charges and Moore Bateman's fees	38,000	0	0
	8,15,000	0	0
Add—Expenditure from loan account for tube wells	9,100	0	0
	8,24,100	0	0
(ii) Liability of the Calcutta Corporation under section 90 of the Calcutta Municipal Act, 1923	6,00,000	0	0
Less -Amount spent on 'Original improvement works"	2,79,958	6	5
	3,20,041	9	7
(a)	8,24,100	0	0
(b)	3,20,041	9	7
	5,04,058	6	5

The nett liability of the Garden Reach Municipality is, therefore, Rs 5,04,058-6-5 or say Rs 5,04,000 in round figures

(4) **Method of payment of the liability of the Garden Reach Municipality.**—Government are pleased to direct that the amount of Rs 5,04,000 payable by the Garden Reach Municipality shall be paid by means of equated annual payments spread over a period of 30 years commencing from the fifth year of the constitution of the municipality

The annual charges for the loans incurred by the Corporation in respect of the Moore Bateman scheme are calculated at 7 5 per cent, namely, interest at 6 per cent and sinking fund charges at 1 5 per cent As recommended by the Committee, the annual payment to be made by the Garden Reach Municipality should be similarly calculated and the amount would thus be Rs 42,674-4-11 per annum

(5) **Arrangements for water-supply.**—Government have considered the recommendations of the Committee and the views of the Corporation on this subject and have come to the following decision —

(i) The existing arrangements for the supply of filtered water in the Garden Reach area will be continued by the Corporation until the Garden Reach main is brought into operation

(ii) As soon as the Garden Reach main is brought into use the Corporation will make over to the Commissioners of the Garden Reach Municipality all motor lorries, water carts and other appliances for water supply, bought for, or in service in, the Garden Reach area, with

the exception of the water-boat, which is now used for supplying water to certain public places and industrial concerns on the river side

(*iii*) After the Garden Reach main has been laid, the Corporation shall supply filtered water to the Garden Reach Municipality, at the point where this main ends, at the rate of *4 as per 1,000 gallons*, the maximum quantity of supply being 62 1 gallons per head per diem This arrangement shall hold good for a period of six years from the date of constitution of the municipality

(*iv*) A *Venturi meter* should be installed on the Garden Reach main, as quickly as possible for calculating the supply of water and the unmetered supply shall be charged for on the basis of the average of the readings actually recorded when the meter is put in

(6) **Liability for the sums advanced under section 5.**—Government accept the Committee's recommendation that the total cost incurred for the preparation of their report should be apportioned between the Corporation of Calcutta and the Garden Reach Municipality in equal shares The half share debitable to the Garden Reach Municipality shall be adjusted against the first annual payment of Rs 2½ lakhs to be made by the Corporation to the Garden Reach Municipality

(7) **Provision of initial funds.**—Under section 90A of the Calcutta Municipal Act 1923 as inserted by section 4 of the Schedule to the Garden Reach Municipality Act the Corporation shall pay an annual contribution of Rs 2½ lakhs to the Garden Reach Municipality with retrospective effect from the 1st April 1932 This means that at the beginning of the year 1935 36 the Garden Reach Municipality will have to its credit a sum of Rs 7½ lakhs, of which half would be reserved for expenditure on new works of improvement in the municipality and the other half would be available for its normal activities Government are pleased to direct that the entire amount payable by the Corporation to the Garden Reach Municipality for the three years ending the 31st March 1935 shall be paid immediately on the 1st of April 1935 As 50 per cent of this sum would be available for ordinary expenditure of the new municipality, Government consider that no provision for further initial funds is necessary

(8) **Revival of Acts and notifications.**—(*i*) *Licensed Warehouse and Fire Brigade Act*—This Act applies to Calcutta and such portion of the suburbs as are subject to Bengal Act II of 1866 (Calcutta Suburban Police Act) and to any other municipality in the neighbourhood of Calcutta to which it is extended

The police jurisdiction in Garden Reach is divided between the Calcutta Police (police station Garden Reach) and the Bengal Police (police-station Metiabruz) For the portion of Garden Reach within the jurisdiction of the Calcutta Police, no notification under the Licensed Warehouse and Fire Brigade Act is necessary But for the portion outside where there are godowns, the services of the Fire Brigade are equally necessary and for that reason the Notification No 797 M, dated the 11th April 1912, was published The Committee recommends that a notification should be published extending the Act to the area notified previously and that the notification should also include certain additional areas including the South India Jute Mills within the purview of the Act

Government accept the Committee's recommendation and the necessary notification will be issued when the report stating the boundaries of

the area proposed to be notified is received from the Commissioner of the Presidency Division

Government also accept the suggestion made by the Corporation that the incidence of the Fire Brigade Contribution payable by it should be revised and split up into two percentages—one for Calcutta and the other for Garden Reach

(ii) *The Calcutta Hackney Carriage Act*—Under section 82, the fees realized under the Act are apportioned between the Corporation and the municipalities included in Calcutta under section 2 (b) of the Act By Notification No 1098 Pl, dated the 25th April 1921, the Garden Reach Municipality was included in Calcutta for this purpose To enable the new municipality to get its share of the fund, so much of the notification as relates to Garden Reach will be republished

(iii) *Cattle Trespass Act*—Under a general notification the Commissioners of municipalities under the Bengal Municipal Act were vested with the powers of the District Magistrate under section 31 (a) of the Cattle Trespass Act and authorised to receive the proceeds of cattle pounds As Garden Reach will be a new municipality, it will automatically come under the Bengal Municipal Act and no fresh notification is required

(iv) *Bengal Motor Vehicles Tax Act, 1932*—Under section 10 (1) of the Act, a sum of Rs 4½ lakhs from the proceeds of the motor vehicles tax is payable annually to the Calcutta Corporation The Committee recommends that when Garden Reach is separated from Calcutta the section should be amended to enable Garden Reach to obtain a share of this sum of Rs 4½ lakhs

When Garden Reach is constituted as a separate municipality it will be entitled under section 11 of the Motor Vehicles Tax Act to receive grants from the proceeds of the motor vehicles tax like other municipalities, and Government do not consider that any reduction of the statutory contribution payable to the Calcutta Corporation is necessary

(v) *Cart Registration Fees*—Government accept the Committee's recommendation that a notification under section 185 of Calcutta Municipal Act should be published declaring the Garden Reach Municipality to be entitled to a share of the proceeds of the Cart Registration Fees

(vi) *Extension of some of the provisions of the Calcutta Municipal Act, 1923, to certain wards of the Garden Reach Municipality*—As the Garden Reach area has, for the last ten years, been controlled by the Calcutta Municipal Act, the Committee considers that no relaxation of the regulations regarding buildings, bustees and streets should be permitted at any rate in the urban areas of the Garden Reach Municipality It, therefore, recommends that these provisions of the Calcutta Municipal Act (i e, Chapters XX, XXI, and XXII of the Act) be extended, under section 541 of the Act, to the proposed wards I, II, III and IV of the Garden Reach Municipality simultaneously with its constitution

Government accept the Committee's recommendation but effect cannot be given to it until the Municipal Commissioners have *divided* the municipality into wards for administrative purposes

(9) **Staff.**—The Committee recommends that for a period not exceeding six months after the constitution of the new municipality the staff

at present employed in the Garden Reach area should be retained This will enable the Municipal Commissioners to examine the working of the staff and formulate a policy regarding the activities with which they are connected

The Committee recommends that the employees of the Corporation who are taken over by the Garden Reach Municipality should retain all the privileges regarding scales of pay, provident fund and gratuities which they enjoy at present under the Corporation, that the Garden Reach Municipality should decide, within a period of six months, as suggested above, whether the retention of each member of the staff is necessary or desirable, or not, that such staff as are not engaged by the new municipality should be retained by the Calcutta Corporation by absorption in other departments, whenever possible, and that any member of the existing staff not retained either by the Garden Reach Municipality or by the Calcutta Corporation should be compensated at the expense of the Corporation

The Committee further recommends that the employees of the Corporation who may be discharged in consequence of the separation of Garden Reach should be allowed the same concessions as if they had been discharged by the Corporation in order to reduce establishment, with this added concession that for the purpose of payment of provident fund and gratuities there should be no minimum time limit of service Under the present rules of the Corporation, no employee is entitled to employer's contribution to provident fund if he voluntarily leaves the service within five years or to gratuity unless he has served for at least 15 years The Committee recommends that there should be no minimum qualifying period of service for these concessions and that the amount of gratuity so admissible, where service of less than 15 years has been put in, should be a fraction of the sum ordinarily admissible represented by the number of actual years served divided by fifteen The Committee further recommends that in calculating actual years of service, the period of service under the former Garden Reach Municipality should be taken into account according to the Rules for Gratuity framed under section 73 (*b*) of the Calcutta Municipal Act

Government accept all the above recommendations with the modification that the entire responsibility for the payment of compensation to each discharged employee, on the terms recommended by the Committee shall rest on the Garden Reach Municipality, and that no liability shall attach to the Corporation for reabsorbing such members of the staff as are discharged by the Garden Reach Municipality on grounds of inefficiency or otherwise

(10) **Apportionment of arrears due to the Corporation other than those on account of rates, taxes and fees.**—Government accept the Committee's recommendation that all such arrears should be received by the Corporation as in the case of arrears of taxes, rates and fees under section 15 of the Act

(11) **Movable property.**—The Committee's recommendations are as follows —

All registers, documents and account books which concern the Garden Reach area exclusively should be made over to the Garden

Reach Municipality If any documents, books or registers concern other areas besides Garden Reach and copies have to be made, the cost of copying should be borne equally by the Calcutta Corporation and the Garden Reach Municipality The copying of all such papers should be completed within six months of the constitution of the new municipality and in the meantime the employees of the Garden Reach Municipality should have free access to records with which the Garden Reach Municipality and the Corporation are jointly concerned

All water lorries and carts, conservancy carts, etc , and all other movable property, plant, material, or furniture, employed in the area of the Garden Reach Municipality on the 1st January 1933, should be made over to the Garden Reach Municipality, when constituted, free of cost Similarly, all schools, dispensaries, maternity centres, milk kitchens, etc , should be made over to the Garden Reach Municipality as going concerns and with the equipment in their possession on 1st January 1933

The trenching ground and a portion of the Trenching Ground Road which will fall outside the area of the Garden Reach Municipality should vest in the Commissioners of that municipality

Under section 12(2) of the Act, all immovable property in Garden Reach area and all interests of whatever nature therein vested in the Corporation of Calcutta shall vest in the Commissioners of the Garden Reach Municipality The trenching ground of the old Garden Reach Municipality situated in mauza Alampur (J L No 5 of police-station Metiabruz comprising plots Nos 570-582 and 584) and the Trenching Ground Road in mauza Ramdashhati (J L No 4 of police-station Metiabruz comprising plots Nos 852 and 939) have been recorded in the name of the Corporation of Calcutta in the settlement records The trenching ground and a portion of the Trenching Ground Road are outside the limit of both the Garden Reach Municipality and the Corporation of Calcutta, *i e* , in villages Alampur and Ramdashhati within a Union Board area This cannot, therefore, properly be vested in the Commissioners of the Garden Reach Municipality under section 12(2) of the Act The Committee, therefore, recommends that all rights and interests in the trenching ground and the road as described above should be vested in the Commissioners of the Garden Reach Municipality by an order under section 20 of the Act

Government accept all the recommendations of the Committee mentioned above, except that as stated in paragraph 2(5)(*u*) of this resolution, the motor lorries and other appliances for water-supply, except the water-boat will be made over to the Garden Reach Municipality after the Garden Reach main has been laid Government are also pleased to direct, under section 20 of the Act, that all rights and interests in the trenching ground and the road shall vest in the Commissioners of the Garden Reach Municipality

(12) **Budget for the year 1935-36 and other preliminary arrangements.**—Under section 20 of the Garden Reach Municipality Act, Government are pleased to direct that the Commissioners of the Garden Reach Municipality may at an informal meeting, held as soon as possible, after the publication of the notifications under sections 8 and 9 of the Act, prepare in detail estimates showing the probable receipts and expenditure during the year 1935-36 and the objects in respect

of which it is proposed to incur such expenditure, the Municipal Commissioners may also at the same meeting consider and make such preliminary arrangements, as may be necessary, for the collection of taxes, *e g* , by printing rate bills, etc , and for other matters relating to the working of the municipality The estimates and other arrangements adopted at such meeting shall be sanctioned by the Commissioners as soon after the constitution of the municipality as possible

Ordered that the above resolution be published in the *Calcutta Gazette*

By order of the Government of Bengal
(Ministry of Local Self-Government),

G S DUTT,
Secretary to the Government of Bengal

APPENDIX A

(1) *Population of Garden Reach in 1941*—In 1921, the population of Garden Reach was 45,567 The Moore Bateman scheme anticipates a population of 78,000 in 1941 (70 per cent increase) This figure is not likely to be reached since the increase in 1931 (census) was only 20 per cent (55,872) Under normal conditions the population of Garden Reach is likely to increase by another 20 per cent to about 66,000 in 1941

(2) *Population of Calcutta (excluding added areas) in 1941*—The population of Calcutta proper increased from 908,000 to one million in 1931 (census) This gives an increase of about 92,000, *i e*, by 10 per cent If this rate of increase is maintained during the next ten years, it is likely that the population of Calcutta would go up to about 1,100,000 in 1941, whereas the Moore-Bateman scheme assumes that Calcutta proper would have a population of only 1,047,000 in that year

(3) A comparative statement of (*a*) the population of Calcutta and added areas in 1941 as given in the Moore-Bateman scheme and (*b*) that of Calcutta and added areas excluding the new Garden Reach Municipality, based on the above calculations is given below —

(*a*) Moore Bateman scheme—

Calcutta Districts, I to IV	1,047,000
Manicktola	118,000
Cossipore Chitpore	79,000
Garden Reach	78,000
Total	1,322,000

(*b*) Estimated—

Calcutta Districts, I to IV	1,100,000
Manicktola	118,000
Cossipore Chitpore	79,000
Dock area and Port Commissioners' properties (*i e*, one third of the population of Garden Reach in 1941)	22,000
Total	1,319,000

STATEMENT OF OBJECTS AND REASONS.

The Committee constituted in November, 1929, in accordance with the recommendation contained in paragraph 292 of the report of the Royal Commission on Agriculture in India discussed not only questions of river conservation, for which provision has since been made in the Bengal Waterways Act, 1934, but also the work undertaken by the Irrigation Department in respect of irrigation, the resuscitation of rivers, the control of floods and the drainage of water logged areas They were unable to recommend any definite scheme for dealing with these problems but their report lays great emphasis on their complexity and their urgency In Western Bengal, in their opinion, the main problem to be solved if fertility is to be restored and disaster avoided is that presented by the protective embankments which have caused the level of the bed of at least one river to rise so greatly that sooner or later a calamity is bound to occur. In Central Bengal they consider the most important problem to be the restoration of the flow of water in the rivers which after building up the delta of Bengal now lie stagnant, they refer to this tract as decadent and highly malarious with a steadily decreasing population and with land going out of cultivation and they even debate whether deterioration has already progressed so far that the tract is bound to revert gradually into swamp and jungle In addition they draw attention to the urgent need for drainage in various parts of the province and to the demand for irrigation both in Western and in Northern Bengal to safeguard crops against the risks of a comparatively short monsoon and a small and badly distributed rainfall They characterise as false the belief that the improvement of the decadent tracts can be other than a difficult and lengthy operation and they comment strongly on the fact that the rivers of Bengal, in spite of their great importance and their influence on the health and prosperity of the people, have in the past been singularly neglected The reason for this they find to be the difficulty of finance In Northern India, they point out, Governments are always ready to finance projects for the improvement of drainage and agriculture because, even though yielding no direct return from water rates, they lead to an increase in the land revenue and therefore constitute a remunerative investment, in Bengal on the other hand the Government secures no increase of land revenue from improvements financed by it and often fails to recover for the tax payer even the cost of the work and its maintenance The proposals embodied in this Bill are designed primarily to avoid this financial difficulty which prevents Government from taking up works undoubtedly necessary for the prosperity of the province and to enable complex and far reaching schemes of improvement to be undertaken with the knowledge that so far from being a burden on the provincial revenues they will prove remunerative They are a development of a suggestion in the Committee's report that the cost of schemes financed by the Government out of loan funds should be met by means of a cess levied at a flat rate on the total area benefited, and they have been so framed as to satisfy the recommendation of the Committee that any provisions for apportionment and realisation should be made as elastic as possible so that the procedure should be adapted to the requirements of each case. The main principle on which the proposals are based is that the Government should be entitled to recover a portion of the increased profits which accrue to private individuals and companies from land of any description, whether used for agriculture or not, owing to works undertaken at the cost of the State and which they would otherwise not have enjoyed It is contemplated that this principle should be applicable to areas where schemes for the improvement of land have only recently been carried into effect, as well as to areas where such schemes are undertaken in the future

The works to which the Bill refers would for the most part be carried out under the Acts, such as the Bengal Irrigation Act of 1876 and the Bengal Embankment Act of 1882, but it is proposed by this Bill to give the Local Government more general powers with regard to drainage schemes than it possesses under the latter Act The opportunity is also being taken to improve the procedure for dealing with obstructions to water channels which constitute one of the great difficulties in dealing with drainage and irrigation in Bengal

Notes on Clauses

Clause 3 embodies the principle on which the concept of the improvement levy is based where profit results from improvement works constructed by Government, Government is entitled to a share of that profit The clause requires previous intimation to be given by the Local Government of its intention to impose an improvement levy

Clause 4 provides for the publication of the notification under clause 3 in sufficient detail to place the public in a position to criticise the scheme

Clause 5 provides for two further notifications after action has been initiated under clause 3 By the former the Local Government shall declare its final intention after considering any objections and suggestions received after the publication of the notification under clause 3 At a later date the Local Government may declare the area to be a benefited area and impose the levy from a specified date Several years may elapse between the two notifications under this clause, as the second would not issue until the improvement work has been constructed

Sub clause (*1*) of this clause ensures that the decision of the Local Government made after objections and suggestions have been considered shall be final, a necessary condition precedent to embarking upon big schemes of improvement Sub clause (*2*) removes the possibility of any argument to the effect that the improvement work does not benefit the area The eventuality of a scheme not fulfilling its promise is covered by sub clause (*3*) and clause 15 Sub-clause (*3*) gives the Local Government power to revise the boundaries of a benefited area if it is found that the benefits are actually limited or extended Uneven incidence of benefit within a benefited area would be dealt with by having different estimates for different classes of land under clause 6(*1*) or by granting remission or abatement under clause 15

Clauses 6 and 7 set out the methods and procedure to be adopted in estimating and valuing the increase in the outturn from agricultural lands within a benefited area

Clause 8 sets a maximum limit to the levy to be imposed on agricultural lands Subject to this limit, the amount of the levy can be revised from time to time, though it is not contemplated that normally revision would be frequent The clause further lays down that the levy shall be payable by the occupiers of the lands A bar is imposed by sub clause (*5*) upon contracts which seek to defeat the proper incidence of the levy

Clause 9 imposes a similar maximum in the case of non agricultural land, and sets out the procedure to be adopted in estimating the profit due to the improvement work The Collector may also determine whether a piece of land is to be deemed "non agricultural" and what persons shall be deemed to be in receipt of the profits Provision is also made for optional commutation of liability to pay the levy

Clause 10 provides for the publication and revision (consequent upon transfer of interest, for example) of a demand list

Clause 11 provides for appeals to the prescribed authority against certain orders passed under clause 9 (*2*) or against the demand list published under clause 10

Clause 12 bars any objection being taken to the imposition of a levy or (except in the manner provided in this Bill) to the liability of any person to pay the same

Clause 13 permits the Collector to continue the final preparation of the statement under clause 10, modifying, if necessary, such items as have been appealed against in accordance with the appellate authority's order

Clause 14 makes copies of the statements prepared under clause 10 or 13 available to persons concerned on payment of the prescribed fee

Clause 15 has already been referred to in these notes (*vide* notes on clause 5) It confers wide powers of alleviation when, through no fault of the persons liable, an improvement work does not in whole or in part, in any particular area or in any particular year, provide the benefits anticipated

Clauses 16 and 17 prescribe the machinery for realising the levy together with arrears and costs, if any Clause 16 allows for the employment upon prescribed terms of agencies other than the Collector (landlords, for example, who are willing to act in this capacity)

Clause 18 provides necessary powers of entry and of removal of crops, provision being made for payment of compensation in the latter case

Clause 19 provides for the production of necessary evidence

Clause 20 departs from the provisions of the Bengal Irrigation Act, 1876, inasmuch as water may be supplied without being applied for and the levy shall be payable whether application has been made or not

Clause 21 is a necessary provision as it may not be possible for a canal to supply water to everyone during the winter months

Clause 22 provides certain powers to carry out drainage works

Clause 23 is wider than section 40 of the Bengal Irrigation Act, 1876, inasmuch as it provides for the removal of obstructions from waters which are not drainage channels

Clause 24 authorises Government to require persons in specified areas to afford free passage of water over their land for the purposes of irrigation or of draining irrigated land The clause also sets out the procedure to enforce, if necessary, compliance

Clause 25 empowers the Local Government, after considering objections, to declare certain rivers or depressions to be dead or decayed rivers as defined in clause 2(*3*) and provides that such declaration shall be final

Clause 26 provides for rules to be made in respect of the grant of compensation for damage or loss resulting from action under clause 23 or from works reviving a dead or decayed river At the same time, no person shall be entitled as of right to such compensation except in certain cases

Clauses 27 and 28 set out the procedure to be adopted in presenting and determining claims for compensation

Clause 29 provides for appeals against compensation awards and lays down that the prescribed appellate authority's decision shall be final

Clause 30 is designed to prevent persons who have not contributed to the cost of the improvement work appropriating a portion of the profits (in the form of increased rent)

Clause 31 deals with the publication of notifications under this Bill

Clause 32 is the customary indemnity provision

Clause 33 groups together the rule making powers

Third and Final Report on the Winter Rice Crop of Bengal, 1934-35.

(*Note* —On an average of the five years ending 1932-33, the area under winter rice in Bengal has represented some 17 9 per cent of the total area under rice in British India)

Character of the season —After the issue of the second forecast in December last harvesting operations were carried on under favourable conditions and a satisfactory outturn was reaped for the province, as a whole

Acreage —According to District Officers' estimates the total area under winter rice is 14,760,000 acres as compared with 15,498,700 acres last year

Outturn —From the summary of the district returns appended it will be seen that one district reports a bumper crop, three districts report a normal crop, fifteen districts a crop varying from 74 to 92 per cent and the rest below 74 per cent of the normal According to the above estimates the provincial outturn works out to 85 per cent of the normal as against 81 per cent last year

Accepting 85 per cent as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 13½ maunds of clean grain per acre, is estimated at 6,221,800 tons this year as against 6,225,700 tons last year

Character of the season —Since the issue of the third forecast in December last, picking was generally carried on under favourable conditions and a fairly satisfactory outturn was reaped for the province

Area sown —The total area sown with early cotton is returned at 72,903 acres and that with late at 1,032 acres this year as against 74,760 acres and the same estimate, respectively, last year

Outturn —The outturn of the early crop is estimated at 23,462 bales and the late crop at 296 bales as against 23,499 and 303 bales, respectively, last year

Should this contingency arise as a result of withdrawal under rule 18 communicated after the scrutiny no poll shall be held for the particular electorate concerned and the fact shall forthwith be notified in the *Calcutta Gazette*, but the formal declaration of result of its election shall be held over until the date of counting of votes in respect of other electorates

(2) If the number of such candidates *with or without special* qualifications exceeds the numbers *with or without the same qualifications* to be so elected, the Returning Officer shall—

20 Each qualified elector desirous of recording votes shall mark the voting paper issued to him with a *single* cross X (and no other mark) *in the proper column* against the name or names of the candidate or candidates (not exceeding the number of members to be elected) for whom he intends to vote (*A vote recorded otherwise than on the voting paper supplied shall not be accepted*) No elector shall give more than one vote to any one candidate

Provided that—

(*a*) at a general election—

(*i*) for an electorate under clause (*g*) a qualified elector may give a maximum number of two votes to two candidates, of whom one must be a teacher Should he vote for more candidates than one, one of the candidates supported must be a teacher

(*ii*) for an electorate under clause (*f*) and an electorate under clause (*h*) a qualified elector may give a maximum number of four and three votes, respectively, to as many candidates, of whom in each case one shall be a teacher and another a registered practitioner practising outside Calcutta

Should an elector vote for more than two candidates for the former [the electorate under clause (*f*)] and more than one candidate for the latter electorate [under clause (*h*)] in case he records a single additional vote it must be in favour of a candidate who is either a teacher or a registered practitioner practising outside Calcutta, or who combines both these special qualifications in himself, in case he records two additional votes they must be in favour of two candidates who possess in the alternative the qualification of teacher or registered practitioner practising outside Calcutta or combine both qualifications in themselves In the event of a single candidate thus supported possessing both qualifications the second additional vote may be recorded in favour of a qualified candidate who is neither a teacher nor a registered practitioner practising outside Calcutta

No voting paper will be accepted unless it is enclosed in the identification envelope supplied, and any defect, *e g*, any incompleteness in the entries required on the envelope or its receipt after the latest day and time fixed for its return with the proper voting paper shall invalidate both the envelope and the voting paper enclosed

Every voting paper in respect of which any requirement of these rules has not been complied with or on which a mark is placed in such a manner as to make it doubtful to which candidate the vote is given or on which the elector has placed any mark whereby he may be afterwards identified or (on which an alteration or erasure occurs indicating a change of vote) or which is not received by the Returning Officer on or before the latest day and time fixed for the return of voting papers, shall be invalid

(*2*) Every candidate may be present in person or may send a representative, duly authorised by him in writing, to watch the process of counting

(*3*) The Returning Officer shall show all identification envelopes whether accepted or rejected to the candidates or their representative for examination of the propriety of their acceptance or rejection, and dispose of any objection taken to his decision in the manner prescribed in sub-rule (*5*)

(*3*) When a candidate indicated for election under sub-rule (*1*) happens to receive the highest number of valid votes of more electorates than one, he shall be allowed to choose for which of these electorates he shall serve

When a seat of a particular electorate remains unfilled by the operation of this sub-rule or becomes vacant by the refusal of the elected candidate to serve, such refusal being signified before his name is published in the *Calcutta Gazette*, the seat may be filled by that one among the other candidates willing to accept office who has received the highest number of votes among unsuccessful candidates of the electorate affected at the election

The Returning Officer shall determine which candidate should be declared as elected under this sub-rule and announce the results as soon as possible after the counting of votes

The declaration in this case may be made either in the presence of the candidates or their representatives if present or merely by notification in the *Calcutta Gazette* under rule 25

24 Upon the completion of the counting of votes and after the results have been declared by him, the Returning Officer shall seal up the voting papers with their identification envelopes and all other documents relating to the election and shall retain the same for a period of six months and thereafter cause them to be destroyed

Ordinarily ministerial and other Government servants, who are required to give security to Government against loss through dishonesty, negligence or disregard of rules, should deposit the whole amount of the security on appointment or bind themselves by two sureties for the whole amount and agree to monthly deductions of 25 per cent of their pay As an alternative to this rule the following procedure may be adopted in the case of all securities of Rs 500 or less —

(*1*) The Government servant may give a fidelity bond of an Insurance Company approved by Government for the full amount of the required security guaranteeing Government against losses through dishonesty, negligence or disregard of the rules on the part of the Government servant

(*2*) Deductions will then be made at the rate of 10 per cent of the Government servants' salary, the fidelity bond to be cancelled only after the full amount of the security bond has been deposited in cash

Note 4—When a Government servant who has furnished security takes leave or is deputed to other duty for not more than six months, he should ordinarily be required to stand surety for the Government servant appointed to act for him to the extent of his own security or for the difference between the security offered by the acting incumbent and that prescribed for the appointment It, however, in special circumstances the permanent incumbent is unable to do so, the Government servant acting for him must furnish the full amount of the security, or, at the discretion of the head of the office, half the amount in cash and the rest in fidelity bonds Security to the full amount should always be taken when the acting appointment is made for more than six months

Provided further that if a Government servant holding substantively a post in which no security is demanded is appointed for a period not exceeding three months to a post in which security is required, the head of the office may permit him to furnish security for a reduced amount or, when the security required does not exceed Rs 500, may, for special reasons to be recorded, exempt him from furnishing any security

STATEMENT OF OBJECTS AND REASONS

Following recommendations made by the Select Committee of the Legislative Assembly on the Indian Mines (Amendment) Bill of 1928 and by the Royal Commission on Labour, both Houses of the Legislature, in dealing with a Draft Convention relating to hours in coal mines, adopted in 1932 a resolution recommending the examination of the possibility of reducing the statutory limits of hours in mines In pursuance of this resolution, the question has been examined by the Government of India in consultation with the Local Governments and the interests concerned, and they consider that it is desirable to reduce the statutory limits of hours in the manner proposed in the Bill

2 The opportunity has been taken to include in the Bill certain other amendments to the Indian Mines Act These amendments and the amendments dealing with hours are explained in the Notes on Clauses the more important ones relate to points brought to notice by the Royal Commission on Labour

F NOYCE

NEW DELHI,

The 16th January, 1935

NOTES ON CLAUSES

Clause 2 raises from 13 to 15 years the minimum age for employment in a mine The Labour Commission recommended an age of 14, but the Government of India consider that the raising of the age to 15 is desirable in view of the fact that a full adult day can be worked by all who are not "children", and they believe that the change proposed would give rise to no serious difficulty

A definition of the word "day" has become necessary in connection with the new hours of employment provisions in clause 6

The word "shift" is at present used in the Mines Act to connote what is termed a "relay" in the Factories Act The opportunity has been taken to substitute "relay" for "shift" where it occurs and to define "relay" in the terms used in the Factories Act

Clause 3 is designed to make the representation of mine workers on Mining Boards equal to that of employers, and follows a recommendation of the Labour Commission

Clause 4 is intended to provide for the maintenance of statistics of minor accidents the investigation of which might lead to an improvement in safety measures, it embodies, in a modified form a recommendation of the Labour Commission

Clause 5 is designed to make it obligatory for Local Governments to publish the reports of Courts of Inquiry, and represents a modification of a recommendation of the Labour Commission

Clause 6 —

New section 22A —This reproduces the provision in the existing section 23 *(1) (a)*

New sections 22B and 22C—The present and proposed limits of hours are as follows —

	Present limits	Proposed limits
(*a*) Above ground	60 weekly	54 weekly
	12 daily	10 daily
(*b*) Below ground	54 weekly	
	12 daily	9 daily

As the new section 22C also provides that the hours of work below ground shall be reckoned from the time the first worker of a relay leaves the surface to the time the last worker of the same relay returns to the surface, the average working time below ground will be substantially less than nine hours

A spreadover of 11 hours for workers above ground has been provided in order to permit of the grant of adequate rest intervals

New section 22D—This is required to meet difficulties arising out of the working of relays and is based on section 46 of the Factories Act

Clause 7—This reproduces sub-section *(2)* of existing section 23

Clause 8 removes the present restriction on the simultaneous presence underground of two relays of workers so as to enable one relay to go out as another is coming in The proposed section 22C provides a sufficient safeguard against the danger of abuse arising through overlapping relays underground

Clause 9 is intended to provide for the exhibition in the notice referred to in existing section 23B of the rest intervals granted to workers above ground, and to make it clear that persons can only be employed within the hours indicated by the notice

Clauses 10 and 11 contain consequential amendments

Clause 12 adds to the existing section 28 the requirement that particulars of rest intervals should be entered in the register, and provides for a record of persons underground, where this is necessary in the interests of safety

Clause 13 contains consequential amendments

Clause 14 is designed to eliminate the necessity of referring drafts of regulations to those Mining Boards which may not be concerned with the subject matter of the regulations

Clause 15 is consequential on clause 4

Clause 16 empowers the Governor General in Council to attach conditions to exemptions from the provisions of the Act, where necessary At present exemptions, when granted, must be unconditional
